NUMBER 32

DESIRES THAT U. S. ASSIST GERMANY

Senator Says Indemnity Too Great; To Suggest \$15,000,000,000

Washington, Feb. 1.—Intervention by the United States in behalf of Germany to obtain a reduction in the indemnity levied upon her by the allies will be proposed in a resolution to be offered in the Senate this week by Senator France, Republican, of Maryland.

Senator France announced his intention of introducing the resolution today. Concurrently, he said, he will submit a plan to fix the German indemnity at \$15,000,000,000, to be liquidated in part by the sale of the German African colonies and the German cables seized by the allies to the United States.

The action of the allied commissioners in fixing the reparations figure at approximately \$56,500,000,000 evoked severe criticism from the Maryland senator. He characterized it as "consistent with the policy of the allies to keep Germany prostrate and demoralized."

Sum Called "Impossible."
"Germany will never be able to pay such a colossal sum," Senator France continued. "Such a huge indemnity will place a chattel on every article Germany will produce for years to come, and German capital and German workmen can not be employed to produce articles wholly for the enrichment of other peoples."

Describing the plan he is to propose for the adjustment of the indemnity question as well as the other financial problems of the world, the senator stated it contains three main propositions. These propositions, he said, would:

First—Fix the German indemnity at \$15,000,000,000 or at \$1,000,000,000 a year for twenty-eight years for the easy payment of principal and accruing interest.

Second—Allow Germany a credit of \$5,000,000,000 against the indemnity for the German colonies in Africa and the German cables that were taken over by the allies during the war.

Third—Authorize the purchase of the colonies and cables by the United States for the same sum, the price to be applied to the debts the allies owe this country.

Would Reduce Debt.

"I believe the United States should use its influence to have the indemnity fixed at \$15,000,000,000 and insist that Germany be given credit for \$5,000,000,000 in return for the German-African colonies and the old German cables," Senator France said.

"This way," he continued, "the foreign debt of Germany will be materially reduced and she will be placed in a position where she can buy immediately the raw products necessary for the rehabilitation of her industries, without which she can pay no indemnity whatever."

"Then the United States should enter into negotiations with the allied and associated powers, seeking to purchase from them the German-African colonies and cables. In return, these powers should receive credit for the debts owing to the United States to the amount of \$5,000,000,000."

"The result of this transaction would be a marvelous change in all the financial relationships of the nations. For debts of doubtful value the United States would receive territory of great value that is in extent one-third of the area of this country, while the European nations would be so greatly relieved by this credit that they would at once be able to begin the purchase of materials they so greatly need."

Plan Talked Over.

Senator France asserted that he had talked his plan over with men of prominence in Great Britain who are of the opinion that it is hopeless to attempt to exact an excessive indemnity from Germany, and that he found them in sympathy with it. He also pointed out that it would settle the controversy that sprang up at the peace conference between the United States and Japan over the disposition of the island of Yap and its important cable stations. As they were formerly German-owned, this government, he said, would acquire thru the purchase provision.

"It is stupid statesmanship which

can not see that a prostrate Germany means a disordered and disorganized Europe," Senator France asserted. "To prevent the spread of extremism, communism and anarchy in Europe, it is imperative that the statesmen of the allied powers and America formulate policies looking toward the rehabilitation of Germany, Austria and Russia."

"If we fail to do this, we may compel the Central Empires, Poland and Russia, to work together in political and economical harmony and unity for the solving of the problems, and if this should occur, it would create a situation most unfavorable to the United States."

NEW PENSION BOARD FOR OHIO COUNTY

The Reorganization of a Pension Board for Ohio County was completed in the offices of Dr. E. B. Pendleton, at Hartford, Jan. 26th, 1921.

Dr. P. T. Willis was elected President of the Board, Dr. E. B. Pendleton, Secretary and Dr. C. R. Bennett Treasurer. The Board will meet 1st and 3rd Wednesdays in every month, until further ordered.

HARDING HAS LUCK ON FISHING JAUNT

Leaves Keys With Sunburn and Fine Catch of Fish, Proves Champion Angler.

Miami, Fla., Feb. 1.—President-elect Warren G. Harding returned here from the Colobo fishing grounds this afternoon, sun-blistered and with a formidable catch of baracuda, amberjacks and sail-fish to show for his outing among the Florida keys.

In the two days the President-elect landed a score of fish, far more than any other member of his party. His largest was a six-foot sail-fish which gave him a battle of more than an hour before it was brought to the gaff.

The yacht Shadow, on which the party made the trip, ran into Miami in time to permit Mr. Harding to play a game of golf late in the afternoon at the Miami Beach links.

He was a guest this evening at a farewell dinner given by former Gov. Winfield T. Durbin, Indiana, and spent the night in a cottage turned over to the party by Carl G. Fisher, proprietor of several Miami Beach hotels.

The President-elect's return trip to St. Augustine will begin tomorrow. He will probably go as far as Fort Lauderdale by motor, and after a game of golf there will board the houseboat Victoria, which is due to reach St. Augustine next Monday. He expects to make short stops at Palm Beach and Ormond.

COURT TO RESUME PROBE OF NIGHTRIDING TODAY

Owingsville, Ky., Feb. 1.—Further investigation of the invasion of night-riders in Bath and Fleming Counties will be made tomorrow before J. L. Aichenson, County Attorney Daniel W. Doggett, who is questioning the witnesses, said tonight that seven men have been summoned to appear before the special court of inquiry tomorrow.

He said that other witnesses may not be called unless the evidence of those already summoned leads to the summoning of others. He said, however, that the investigation will be thorough no matter how long it may take to complete it.

P. T. CIVIC WELFARE COMMITTEE FEB. 10

The Parent-Teacher Association will hold its regular meeting at the School Auditorium February 10, at 7:30. After a short business session the meeting will be in charge of the Civic Welfare Committee who have prepared a program that will be both instructive and entertaining. Every one interested in Hartford is urged to be present.

COUNTY BOARD OF HEALTH ORGANIZED

The Ohio County Board of Health met in the office of Judge Mack Cook January 26th, 1921 and elected Judge Cook, chairman and Dr. E. B. Pendleton Secretary. A report of work done by the Board for the last two years was read by the secretary. The Board then adjourned, to meet at the call of the Chairman.

SHEPHERDSVILLE WHIPS HARTFORD

High Five Also Drops Game To Earlington Legionnaires; Youngsters Cop Two.

The Hartford High School Quintette thought it had a game scheduled with the Earlington High School team for Thursday, a week ago, but for some reason or other the Earlington squad flew the coop and refused to play. However the local boys played the American Legion team while in the Hopkins County Coal town, a team said to be the fastest a Western Kentucky, having been declared the 1920 champions, and lost by the score of 22 to 15, not so bad when considered from all angles.

The Shepherdsville High Five played the locals here Saturday night, wadding the game under their belts to the tune of 44 to 24. The game started off good and fast, with honors six to a half dozen during the first 8 minutes of play, but for some reason or other two or three of the Hartford boys seemed to go into a sort of trance, letting everything and everybody get away with every play necessary for the opposition to walk away with points enough to win the game. When time for the first period was called the visiting quintette had registered 34 points to 15 for the home boys. Hartford woke up during the last half and finished strong holding their own against the best team seen on the local floor during the season.

The third and fourth teams played the teams of Noreck school Wednesday night on the local court, and dandy games they were too. The mid-gets won over the Noreckers by 13 to 8 and the local third or 8th grade five defeated the first team from the Creek That is Not, 21 to 19.

The Highs are to make a pilgrimage to Caneyville today where they play the Federal High Quintette of that place. These two net tossing aggregations appear to be tolerably well matched, and barring mishaps, a royal good game ought to be given the fans up on Caney.

FORDSVILLE SENIORS TO STAGE ANNUAL PLAY

The Senior class of the Fordsville High School will stage their annual mid-winter play Friday night Feb. 4th. The play is a comedy in three acts, "Men, Maids and Matchmakers" and is full of life-throughout.

GIGANTIC AIRPLANE CAN CROSS OCEAN

London, Feb. 1.—Airplanes developing 5,000 horsepower and carrying 250 passengers each across the Atlantic have been rendered possible thru the successful completion of new 1,000 horsepower Napier engines, which are the most powerful in the world.

Two of the engines, which have been nicknamed "The Cubs" have been ordered by the Royal Air Force and will be fitted to the Titania flying boat, a huge air destroyer, with a 1,500-mile range and designed by the British War Office for long fighting patrols.

The Titania carries a crew of 20, but if adapted to civilian use it could accommodate fifty persons.

The Napier Company declares that a Cub engine is capable of use on a regular twenty-four-hour transatlantic service via the Azores, where the passengers would transfer to another airplane. Five Cub engines would be fitted to each plane and the passengers would be accommodated inside the wings.

PRESIDENT IS CHEERED BY THEATER AUDIENCE

Washington, Feb. 2.—President Wilson was suffering no ill effects today from his attendance at the theater last night, his first since the illness which interrupted his League of Nations speaking tour in September 1919. With Mrs. Wilson and his brother-in-law, John Randolph Bolling, the President witnessed a performance of John Drinkwater's "Abraham Lincoln," surprising a large audience when he appeared in a lower box shortly before the curtain rose.

A round of applause and cheers greeted the President when recognized by the audience, which rose in unison and stood until he was seated.

LEE ELLISON DIES BY ELECTROCUTION

Slayer of Hopkins County Sheriff Goes To Chair With Trembling And Prayer.

Lee Ellison, the negro who killed Robert S. Hunter, sheriff of Hopkins County, December 5th, when Hunter went to the negro's home to serve a warrant of arrest on him, paid the penalty early Monday morning in the electric chair, at the Eddyville Penitentiary.

The doomed prisoner had spent much time prior to his execution in prayer and appeals for spiritual mercy. He did not sleep at all during the night preceding his execution, but spent the whole night in agonizing and prayer for forgiveness. An Eddyville Minister was with him preceding his execution. He was led from the death cell and placed in the electric chair at four o'clock Monday morning, a veritable mass, of black trembling flesh. He was strapped in the chair and exactly at 4:30 the end, for him, had come. He was pronounced dead by the physicians present.

Dr. J. S. Bean, formerly of this place, but now of Horse Branch and Owensboro, was present and witnessed the electrocution. The Doctor says it was frightful to behold the utter agony and intense mental suffering of the negro.

FORDSVILLE HIGH SCHOOL DEFEATS OWENSBORO

Fordsville High School Basketball Quintette defeated the Owensboro team on the city high school floor last Saturday, to the tune of 23 to 20. The main feature of the game was speed and team work.

BEAVER DAM HIGH SCHOOL GOING GOOD

Fifteen new pupils have enrolled in high school at the mid-term beginning January 17, 1921. This brings the enrollment of the school to a new high mark. There were already in attendance a record number of students that had entered at the beginning of the fall term.

Many things have been done by the school this year in keeping pace with the demands made upon it. Not the least of these was the initiation of a domestic science department for the high school girls. This department is in charge of Miss Sallye H. Coleman, a graduate of the University of Kentucky. Miss Coleman is thoroughly prepared for this work and has made the department highly efficient. This department is under the supervision of the State Board for Vocational Education. This is one branch of the federalized vocational work under the provisions of the Smith-Hughes federal law.

Five oil stoves of four burners each, four new sewing machines and numerous other material equipments have been provided for the work. In fact when a girl has taken the work of this department in connection with the literary work of the high school she is thoroughly equipped for making a home.

The other departments of the school have been enjoying marked success. The Smith-Hughes vocational work for boys is providing interest and work for the members of these classes. When this work is finished one has a complete scientific and practical knowledge of the most important facts connected with life in rural communities. The federal government is anxious to make these schools models of efficiency, and is leaving no stone unturned in seeking to accomplish this end. Adequate equipment for Vocational agriculture has been provided. The science laboratory has been thoroughly reworked and is in good shape. It adds much to the interest of the work in science. The literary work under the direction of Miss Elizabeth Davidson is meeting all requirements for efficiency and service. When this course is taken in connection with the sciences offered the student goes out into the world fully prepared for success. The people of Beaver Dam are wide awake and ready to meet whatever requirements are necessary to keep the school in the fore front in its work.

The grades have had many new pupils enter at the mid-term. These are in charge of thoroughly competent teachers. The work is such that it meets the approval of the community and gives to the boys and girls in the grades thorough work. In fact many things combine to make this school year a most successful one.

MRS. JNO. B. WILSON, President P. T. A.

community and gives to the boys and girls in the grades thorough work. In fact many things combine to make this school year a most successful one.

OWENSBORO MINISTERS WAR ON SOCIETY GAMES

Owensboro, Ky., Jan. 30.—War on gambling in Owensboro has been declared by the Men's Christian League. The opening fight is not against the poker and dice games conducted by professionals, but against social card playing for prizes in the homes. Practically every minister in Owensboro called upon the members of his congregation this morning to cease playing cards in any form especially for prizes and stakes. The edict issued by gambling committee of the Men's Christian League says that where moral suasion fails, legal proceedings will be taken. The announcement says that playing cards for prizes is gambling in the eyes of the law. The action of the committee has created a small sensation in Owensboro society. Many of the leaders of church work are well-known card players. The ministers pointed out today that they will be hampered in future work against gambling if they do not "clean house themselves."

MRS. C. B. SHOWN IS ILL OF INCEPHALITIS

Mrs. Shown, wife of Capt. C. B. Shown, of Beda, is afflicted with what physicians have pronounced sleeping sickness, (Encephalitis.)

Mrs. Shown has been ill of the strange and rare malady since Thursday, Jan. 27, past. She lies in a stupor, or semi-sleeping condition, only being aroused when efforts are made by those attending her. The disease has apparently affected her vision and hearing and while her vision was thought to be better yesterday afternoon, trouble with her throat appeared to be developing.

The disease or malady according to our meagre information, is really a direct symptom of some disorder of the brain, such as inflammation of a certain portion thereof, which makes the trouble extremely difficult of treatment and little known of by medical science. Close observations of attending physicians in Mrs. Shown's case, lead them to hold out hope for her recovery, although perhaps, some time delayed.

BAPTIST MISSION BOARD IN SESSION

The Ohio County Baptist Mission Board held its regular monthly session here Tuesday, when recent records for members in attendance were broken. Besides a large number of laymen the following ministers were present: R. L. Brandenburg, Fordsville; H. L. Jarboe, Trisler; C. C. Daves, Beaver Dam; R. E. Booker and Z. Farrell, McHenry; M. G. Snell, Central Grove; Birch Shields, Cromwell; R. E. Fuqua and Russell Walker, City.

Mr. J. W. Beagle of Georgetown, State Enlistment Worker was also present and addressed the meeting in the afternoon, in the interest of the Baptist \$75,000,000 campaign. He also remained in Hartford Tuesday night and lectured at the Baptist church.

ARMY NOMINEES ARE CONFIRMED BY SENATE

Washington, Jan. 29.—The Senate late today confirmed the nominations of 5,000 junior officers of the army. The confirmations were the first of the present session and were in open session by unanimous consent.

The nominations were presented by Senator Wadsworth, of New York, chairman of the Military Affairs Committee. A majority of the officers effected won their commissions on the battlefields of France.

HAVE YOU?

Have you ever looked at our town as strangers look at it, streets, houses, vacant lots, the people, especially the children? If not, take a walk, see what is needed, then attend the P. T. A. Meeting at the School Auditorium Thursday evening, Feb. 10. If you then think there is work to be done, don't knock, but co-operate with the Civic Welfare League, and enlist the support of your neighbors in improving conditions.

MRS. JNO. B. WILSON, President P. T. A.

WILSON REFUSES TO PARDON DEBS

President Rejects Suggestion Of Officials To Free Political Prisoner.

Washington, Jan. 31.—Recommendation by the Department of Justice that the ten-year sentence of Eugene V. Debs, Socialist leader, and now serving a ten-year sentence at Atlanta for violation of the war time espionage laws, be commuted, effective February 12 next, Lincoln's birthday, was rejected today by President Wilson and commutation refused.

The decision of the President came as no surprise because of his previous refusals to intervene in the case on the ground that Debs had sought to handicap the government thru opposition to the selective service act during the war, and that the granting of clemency in this case might induce similar tactics on the part of others in the event of another war. Announcement of the President's decision was made a few hours after the recommendations of the Department of Justice had been submitted to him. The case had been reviewed by a special board now taking up all convictions under the espionage act, and their findings were endorsed by Attorney General Palmer. The findings are understood to have pointed out that Debs would be eligible for parole on August 11, 1922, and that his sentence, in case of good behavior, would expire on December 28, 1925. The recommendation is understood to have suggested that Debs had been adequately punished by his confinement since June 15, 1919.

When placed on trial at Cleveland Debs called no witnesses in defense and made the only argument in his own behalf. In appealing to the Supreme Court he attacked the admission in evidence by the lower court of the St. Louis Socialist platform, which he had endorsed, and records from the trial of Rose Pastor Stokes, and alleged that he had been tried on his "state of mind." Validity of the espionage act as violating the right of free speech was also attacked by Debs before the higher court.

BUSINESS CHANGE.

Mr. Charles Lunsford, formerly of Madisonville, who has been here for several months in the capacity of Mine Foreman for the West Hartford Coal Co., has purchased the restaurant business of Arthur Leach, also the building in which the restaurant was operated, of Luther Leach. Mr. Lunsford took charge of the business Saturday and has moved his family into the rooms over the restaurant.

HARTFORD SCHOOL NEWS.

Saturday night, Jan. 29 the Shepherdsville Five met the H. H. S. team on Hartford's floor. The Hartford team was defeated, the score being 44 to 24. This game was the fastest that has ever been played on Hartford's floor, and the Shepherdsville team is the strongest that the Hartford boys have ever met.

After the game a Theater Party was given in honor of the Shepherdsville team. Those in the party were: Misses Gladys Bennett, Amella Pirtle, Bessie Clark, Kitye Bess Dodson, Loubel Williams, Kathleen Tichenor, Margaret King, Martha Stevenson, Emily Pendleton, Anna Rhea Carson, Beatrice Bean, Gertrude Schlemmer, Sallye Shultz, Lorene Westerfield, Ernestine Ralph; Messrs. Gabe Summers, Roy Thompson, George Wiggleton, Charles Ashby, Jerome Monroe, Charles Lee Bradburg, the Shepherdsville boys; Blanton Ellis, Earl Bartlett, Arnold Likens, Raymond Robertson, Virgil Crowe, Douglas Williams, Cecil Tichenor, Ozna Shultz Jr., Herbert Porter and Raymond Felix, of Hartford.

The H. H. S. boys have a game scheduled with Caneyville Friday. This is expected to be a tight game, as Shepherdsville defeated them by about the same score as they defeated the Hartford team.

The faculty of Hartford College spent Friday, Jan. 28 in Owensboro inspecting the High School and Graded Schools there. Those who went were: Prof. J. F. Bruner, Prof. Roy H. Foreman, Mrs. S. O. Keown, and Misses Mary Marks, Martha Stevenson, Alice Taylor and Winnie Wilson.—Reproduced from Herald on request.

TARIFF LAW TO RAISE \$750,000,000

Fess Outlines Benefits Of G. O. P. Protection Plans.

(By Snell Smith.)

Washington, January.—Declaring that the present Republican Congress will save one billion dollars during the present session, Representative Simeon D. Fess, of Ohio, chairman of the Republican Congressional Committee, throws light on what further expedients may be resorted to in the near future to ease the heavy burden on the taxpayers.

"The war," he says "has left its problems of finance. To care for the interest on the public debt \$1,200,000,000 will be required annually. The care of the disabled soldier, the dependents of the dead, and the insurance of the service man, including the hospitalization as well as the rehabilitation, reaches an enormous sum of money. We are told by the head of the Treasury that for some years yet we must provide by taxation an annual expenditure of at least \$4,000,000,000. This is almost six times what it cost us in 1912 and fully four times the cost of 1917."

Billion Saved This Session.

"Taxation is our most important problem for immediate attention," he goes on. "Our first duty is to cut the cost of government. This is the work of Congress, the appropriating body. We are now at that work and we will cut the cost almost \$1,000,000,000 this Congress."

"Our next problem is to insure a more businesslike and economic administration of affairs by the adoption of a budget system. This will be done without undue delay."

"We have already taken the first step to eliminate duplication by a reorganization of government departments. Our next step is to revise our entire taxation system in the interest of simplicity and equity. It is generally agreed that the excess profits tax will be repealed as an economic necessity. Serious consideration is being given to revision of the income tax in the higher ranges for the same reason, and in order to avoid drawing income into investment tax non-taxables."

"Two new taxes are now being considered, viz: the sales tax and that upon the undistributed profits of corporations. A flat tax of from 15 to 20 per cent on corporation incomes is being discussed with some seriousness."

Now Holding Tariff Hearings.

"The Ways and Means Committee is now holding hearings on which to base a revision of the tariff schedules. It is thought that the customs duties, which under the Underwood law now amount to a little over \$300,000,000 can be made to produce from \$600,000,000 to \$750,000,000 through a tariff measure based upon the protective principle."

"Whatever the form our taxation system will become, it can be simplified so as to ensure our citizens against uncertainties of assessments. It must also be so drafted as to avoid penalizing business. It should as far as possible stimulate enterprise and thereby invite investment of capital and the employment of labor, in the assurance of the integrity of business enterprise, thereby inviting the encouragement of existing business plants, as well as the creation of new businesses. With the government's early steps to get out of business in order to give private enterprise a chance, with its determination to revise the taxation system on the most equitable and economic lines, and with the assurance of the reduction of government costs, we can now ask what of the future of business?"

"The inevitable liquidation of war conditions through which the nation will pass to a peace basis necessitates some suffering. That is unavoidable. We are now in the midst of that process. War levels must come down. Prices are too high. We have waited for two years. Finally the buying public has struck. Together with the European situation, goods are left without buyers, business is slowing down, unemployment is increasing, and prices must come down, even though they fall below cost. This is the law and it cannot be averted. Congress is beset to fix prices or to enact palliative legislation, all of which is unwise because uneconomic. We cannot pass laws to reduce the price to the consumer and increase it to the producer. The truth is that the producer of some goods is the consumer of other goods. This liquidation must come. The sooner it comes, the sooner it will be over."

"As we see it, the future is bright. Our people hold a wonderful position. We have neither famine nor failure. On the other hand, we have a record crop from the field of agri-

culture. We have taken steps which have assured us of a successful transportation system. The steel industry will be taxed to its capacity to meet the needs of construction of railroad equipment. The European situation will be settled by our bringing about peace with Germany, which will open her market to us. Germany's indemnity will be definitely fixed by the Allies, which must be done before Germany will place the empire in a working condition. Europe will take our surplus. Good times will come with the protective tariff and the practice of the strictest economy by Congress."

Congress Not Against Labor.

While Congress is rapidly going ahead with its double program of saving big sums of money and at the same time getting things done, it is safe to say that it will not join in any movement to help destroy the labor movement by joining in any general attack by manufacturers upon the employment of union labor.

"I know of nothing more shortsighted," says Senator J. S. Frelinghuysen, of New Jersey, one of the closest friends of the President-elect than the present tendency on the part of many manufacturers to utilize the dull period in business to make war on the labor unions under the guise of a movement for the open shop wherein it means a shop closed to union organization. Labor unions have done much to bring about better hours and wages and better working conditions. Wage earners have the same right to organize for their own good as manufacturers and business men generally have to organize for their own benefit."

Warning Against Hotheads.

"The great body of our workmen deprecate such criminal measures as have been practiced by the I. W. W. and the Western Federation of Miners and such crooked methods as adopted by the building trades leaders in New York City. Such measures must be prevented and the labor unions must help to wash their hands of them. But the Republican party when entering upon the full power of conducting the government should remind our manufacturers that they must not judge our entire American labor movement by the hotheads and radicals, and should likewise remind our wage earners that American business is not to be judged by the reactionaries who would entirely suppress the right of labor to organize. There is a middle ground or method by which we may harness the vast energies of American labor and the productive might of American capital to the task of making America supreme among all the nations of the world in productive capacity. When we find that method we shall lead the greatest commercial revival in history, soon to follow upon the present period of liquidation for the energies of the earth have been quickened by war and those energies will be turned to commerce."

"The principle of collective bargaining should be acknowledged in interstate commerce, but unions should be made to live up to their agreements when made. The fallacy that labor creates value and that labor is therefore entitled to the full return on the value it creates, which is the basis of most of our socialistic propaganda, should be met with education as to the real part which both labor and capital play in industry and as to the worth of initiative in our institutions. The Department of Labor should not be conducted as an adjunct of the American Federation of Labor nor as a vehicle for the views of those who favor non-union labor entirely. It should be administered for the benefit of all our wage earners everywhere, and the Republican party should so utilize it in the four years to come that it will actually better working conditions and at the same time actually assist in the upbuilding of the prosperity and efficiency of American industry."

Swats Coal Profiters.

Following upon the enactment by the House of assistance to the farmer thru the emergency tariff measure and to the laborer thru the limitation of immigration, Senator Calder has introduced a drastic bill with which to swat the coal profiteer and thereby assist the poor and downtrodden ultimate consumer, of which there are legions throughout the land.

The bill authorizes the President to deal in coal and control its production, movement and distribution in the event of any emergency, so as to put the government and not those self-interested in control when the usual laws of trade are in suspense, but limited only to the continuance of the emergency and to the protection of the public health.

"While profiteering has been both proven and admitted," says the Senator, "there exists a controversy as to exactly who is responsible and to what extent. For example, as to the 1,000,000 tons purchased by the War Department on the spot market in 1920, the figures show that an average mine price greater than a reasonable original mine price separated such price from what the Govern-

ment was forced to pay, to wit, an excess of \$3.50 per ton average for the whole amount bought. How many resales and profits this represents in the different instances only a complete tracing of each carload will disclose."

Senator Wants Debt Paid.

"To meet such a situation (and the committee feels that such legislation will be helpful on the high cost of living in other lines) the bill has a provision taxing brokers' sales, above a certain margin, for the sale of coal and direct from the purchaser, and taxing such sales to a much greater point on subsequent or useless pyramiding sales between dealers. This is calculated to drive coal in a direct channel from producers to consumers and keep it out of the whirlpool of endless commissions and margins. Profiteering by subsidiary or affiliated concerns is also prohibited."

As the result of the criticism throughout the country of the administration's permission to the Allies to suspend interest payment on their indebtedness to the United States, Senator Walsh, of Massachusetts, has introduced a bill in the Senate providing that hereafter no such concession shall be made by the Secretary of the Treasury without first referring it to Congress for its decision. He has also asked in a resolution that all the correspondence in the matter of loan suspensions be sent to Congress. The Senator is of the opinion that much of the money which would otherwise have been paid to the United States has been utilized to maintain order and incidentally suppress liberty in Ireland.

A scald, burn, or severe cut heals slowly, if neglected. The family that keeps a bottle of Ballard's Snow Liniment on hand is always prepared for such accidents. Price 25c, 50c and \$1.00 per bottle. Sold by Ohio County Drug Co.

HAYS TO LOOK INTO CONDITIONS IN SOUTH

Washington, Jan. 30.—The Republican National Committee is preparing to investigate party conditions in the South for the purpose of recommending changes in the apportionment of delegates to the next national convention.

Will H. Hays, national chairman, today announced the make-up of the committee, which will conduct the inquiry in accordance with resolutions adopted by the Chicago convention. Mr. Hays will be ex-officio chairman. Other members are: Representative C. Bascomb Slomp, Virginia; Earle Kinsley, national committeeman, Vermont, and R. P. Howell, national committeeman, Nebraska.

The investigation, a committee statement said, "may result in something of a revolution in the Republican party organizations in the South and perhaps even a complete reconstruction in that region."

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using Herbine. Take a dose on going to bed and see how fine you feel next day. Price 60c. Sold by Ohio County Drug Company.

FAVORS DISARMING, BUT PLANS BIG NAVY

Tokio, Jan. 29.—Regardless of the naval program of the United States, the Japanese program requires completion of the eight-battleship and eight-cruiser unit, and Vice Admiral Tomosaburo Kato, minister of the navy, in responding in the Diet today to an interpellation by Lieut. Gen. Uehara, chief of staff, as to Japan's view of Senator Borah's resolution in the United States Senate concerning a cessation of warship construction. Japan's naval construction plan, however, the minister said, need not be carried out with the United States as an imaginary enemy. He explained that he favored world curtailment of construction, if practicable and said Japan would adhere to such a plan.

Chronic Constipation.

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.

The new army gas mask, instead of being carried on the chest fits under the armpit, and one motion enables the wearer to get it on his head.

A perfect substitute for radium has been found from a by-product of gas lamp mantles.

SMALLPOX SERIOUS AT MIDDLESBOROUGH

State Health Board Emphasizing Need Of Vaccination, Issues General Warning.

Following closely upon the State Board of Health's announcement last week calling attention to the universal need of vaccination in Kentucky, word has been received from Middlesborough, Bell County, that the smallpox epidemic there has become so serious that the County Board of Health, exercising the power vested in it by law, has declared immediate vaccination of all the citizens of Middlesborough obligatory.

The regulation, called to the attention of the residents of the city in an announcement issued by Arthur Rhorer, City Commissioner, stated that everyone who had not been vaccinated within the last five years must give this his attention by January 18. To make certain that the order was obeyed two inspectors visited everyone in Middlesborough between January 18 and 22, and where failure to comply was encountered the case was handled according to law.

In his announcement Mr. Rhorer appealed to the citizens of Middlesborough to render all assistance in seeing that the order was obeyed promptly, stating that the State Board of Health otherwise would order that a quarantine be enforced against the city.

The situation there is said to have become very acute. An article in the Middlesborough News of January 11 stated that there were 50 cases in the city and on the preceding day, for the first time in the history of Middlesborough, a hotel was closed as a result of smallpox.

In a statement issued in Louisville, Dr. Arthur T. McCormack, State Health Officer, called attention of people all over the State to the situation in Middlesborough, saying that conditions there had become so serious purely because of indifference to vaccination and advising other communities to guard themselves against a like dilemma by immediate vaccination.

Surgeons agree that in cases of Cuts, Burns, Bruises and Wounds, the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal Antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by The Ohio County Drug Co.

POPE BENEDICT ISSUES WORLD PEACE APPEAL

Rome, Jan. 28.—Pope Benedict, on the occasion of the seventh centenary of the foundation of the Third Order of St. Francis of Assisi, addressed an encyclical today to all bishops throughout the world which calls on all mankind to work for world peace and Christian reconciliation, invoking especially, the assistance of all "Children of Christian peace and those belonging to the Third Order."

Ford
THE UNIVERSAL CAR

Hitherto the farmer has woven the power of his own muscles with those of the ox, the mule, and the horse, in the development of agriculture. Practical machinery for farming has come to him slowly. Where the value of machinery in labor saving, in profit-making, in usefulness, in comforts, in luxuries, has in the past been largely confined to the towns and the cities, it is now open to the farmer who is beyond all question the very bone and sinew of civilization. Civilization grows upon the land, therefore the land is Father and Mother and Sustainer to the human race, and those who till the soil, who plow, sow and reap, are surely the essentials in human existence. Therefore Machine Power on the Farm is of the utmost importance and the Fordson Tractor comes to the farmer as the best, we believe, piece of machinery that has yet been devised for his use.

We want you to read the book "The Fordson at Work." It is free for the asking. Call in and get one. Drop us a card and we will mail you one without charge. This booklet is along the line of the usual Ford way of giving the testimony of the users, those who have tried out and who know the real value of the Fordson Tractor. This book shows the Fordson at work in some ninety different lines of activity and to the farmer it presents the most valuable evidence of an all-around serviceable, economical, labor-saving, and money-saving machine that has ever been placed upon the market. We can only get so many each month, so leave your order now.

BEAVER DAM AUTO COMPANY

BEAVER DAM, KENTUCKY

BEECH VALLEY.

This section of the County is visited by the heaviest sleet that has been seen in this section for some time. It is doing much damage to timber and telephone lines.

Mrs. J. L. Patton and son, Willie, spent Wednesday with their daughter and sister, Mrs. T. S. Miller, and Mr. Miller.

Miss Dona Ralph, of Sunnysdale, has accepted a position with a Coal Company, at Greenville, Ky.

Mr. J. D. Miller, of Dukehurst, spent Sunday with his mother, Mrs. M. E. Miller.

Miss Mattie Brown, James Albert and Hugh Almon Duke, of Sunnysdale, spent Sunday with Mrs. M. E. Miller, and Miss Valeria Brown.

Mr. and Mrs. Lee Welch and children, of Ralph, spent Saturday night and Sunday with Mr. and Mrs. Romney Helton, of Sunnysdale.

Mr. T. S. Miller made a business trip to Fordsville, Wednesday.

Mr. and Mrs. Bertron Magan visited relatives at Adaburg Saturday night and Sunday.

Mr. and Mrs. T. S. Miller spent Sun-

day with Mr. and Mrs. J. C. Patton, of Ralph.

Mr. and Mrs. Jesse Westerfield and children, of Ralph, spent Sunday with Mr. and Mrs. Bert Smith, of Dundee.

Mr. Reat Norris, of Sunnysdale, has erected a residence house on Mr. Clarence Taul's place, and will move into it soon.

Mr. and Mrs. Barney Johnson and little daughter, Mary Durrelle, visited relatives at Sunnysdale, Sunday.

Gas in the stomach or bowels is a disagreeable symptom of a torpid liver. To get rid of it quickly take Herbine. It is a marvelous liver stimulant and bowel purifier. Price 60 cents. Sold by Ohio County Drug Company.

MILLS MAKE BIG PROFITS

Cotton mills of Lancashire showed enormous earnings for 1920. The mills, with a total capital of \$31,000,000 paid \$25,000,000 dividends. One paid 425 per cent profit. British imports for the past year amounted to \$1,500,000,000, and increase of \$500,000,000.

The Louisville Courier-Journal

The Great Paper of the Southland

The Courier-Journal is ably edited; it is sane and dignified in its handling of news; it is fearless, yet fair, in its editorial utterances; and it always will be found the champion of clean government.

The Courier-Journal surpasses all its competitors in equipment for getting the news of the day, because it has not only the Associated Press dispatches but the full wire service of the New York Times. In addition it maintains staff correspondents at Frankfort and at Washington.

No Kentucky Home Is Complete Without It.

By special arrangements we are now able to offer

The Daily Courier-Journal

AND THE

Hartford Republican

Both one year, by mail, for only \$5.75

This offer applies to renewals as well as new subscriptions, but only to people living in Kentucky, Tennessee, or Indiana. New subscriptions may, if desired, start at a later date, and renewals will date from expiration of present ones.

If you prefer an evening newspaper, you may substitute the Louisville Times for the Courier-Journal.

Send or bring your orders to the office of

THE HARTFORD REPUBLICAN.

NEW REPUBLIC IN CENTRAL AMERICA

Federation Of Four Nations Soon To Be Reality.

Washington, Jan. 29.—Notwithstanding that Nicaragua did not sign the treaty negotiated at San Jose, Costa Rica, early this month providing for the creation of a Central American republic, ratification by the Congresses of the four signatory countries is expected in time to have the new federation come into existence before next September 15, according to an announcement tonight by Dr. Julio Blanchi, the Guatemalan minister here.

Under the treaty, Guatemala, Honduras, Salvador and Costa Rica would be merged under the new federation. Nicaragua, it was explained, withheld her signature because she did not wish to surrender certain rights, especially in reference to the treaty-making power, but a provision was inserted in the pact to permit her admission at any time.

The text of the treaty, which ultimately would create a republic of more than 5,000,000 people, was made public tonight by Dr. Blanchi. In general, it provides for a government modeled on the lines of the constitution of the United States with three separate branches—the executive, legislative and judicial—although the executive is modeled more on the Swiss system. A constitution embodying these provisions would be framed at a convention to be called when three of the signatory countries have ratified the treaty.

"Insofar as it does not infringe on the federal constitution," the treaty provides "each state will retain its autonomy and independence insofar as the management and direction of its internal affairs are concerned, and will carry on the governmental functions not specifically delegated to the federation."

The constitutions of the several states also will continue in force, except such parts as may be found in contravention of the federal constitution.

"The executive power," the treaty says, "shall be reposed in a federal council composed of popularly elected delegates. Each state is to elect one council man and one alternate, who must be at least 40 years old, and a native-born citizen of the state from which he is elected. Members of the council shall be elected for terms of five years and must reside at the capital. Alternates may enter into deliberations of the council but have no vote.

Council To Name President.
"From among their number the councilmen shall elect a president and a vice president" each to hold office for one year. Neither may succeed himself immediately in office.

"The council shall carry on the business of the nation and may create necessary departments for the purpose.

"The legislative branch of the government shall be reposed in two houses, one of Senators and the other of deputies.

"The Senate shall consist of three senators for each state, elected by the Congress of the state in question. Senators must be at least 40 years old and citizen of the state sending them to the Senate. Each is elected for six years, the body renewing itself by thirds every two years.

"The House of Deputies shall be composed of popularly elected representatives in the proportion of one to every ten thousand inhabitants or fraction of more than five thousand. Deputies are to be elected for four years, the House renewing itself by one-half of its membership every two years.

Supreme Court Provided.
"The judicial power shall be vested in a supreme court and other courts established by law. Supreme court judges shall be seven in number and elected by the Senate from a list of eligibles prepared by the executive council. Magistrates are elected for life."

The pact provides that the federal government shall recognize the government of no federated state whose head is the product of a revolutionary movement.

Children Cry FOR FLETCHER'S CASTORIA

DEMANDS OF ALLIES IMPOSSIBLE, SAY GERMANS

By Karl Von Wiegand.
Berlin, Jan. 29.—"Too absurd to discuss seriously."
"The height of Paris madness."
"A generation, and a half of the German people are to be slaves to the allies."
These are a few of the many com-

ments in high official and press circles on the news from Paris that the allied premiers meeting at the Supreme Council have agreed that Germany must pay 226,000,000,000 gold marks in reparation for the war damages.

The stunning blow which fell overnight in official and public quarters is lightened only by the declarations that the sum proposed is so fantastic that it could not be taken seriously and relief is professed in the very absurdity of the figures.

The foreign office today said that no confirmation of the Paris news had been received, but no one in Wilhelmstrasse was inclined to question the accuracy of the press reports.

In bank circles it was pointed out that the sum of reparations reportedly fixed by the premiers was practically the total German national wealth today if the occupied German territory is excluded from the calculations.

"Impossible" is the word most used wherever the matter is discussed.

"Germany can never agree to such a figure because she would promise something she could not fulfill," declared one of the highest officials of the foreign office. "If the allies dictate that sum without regard to the consequences then let them see how they can get it."

"There is not a country in the world today that is paying dividends. In other words, there is not a single state that is being so run as to pay a profit. If the Entente thinks that Germany is so remarkable an exception, then let them come in and run the country to show us how they can do something in Germany which they frankly admit they can not do in their own countries."

The most bitter disappointment of the Germans is the reported flop of Premier Lloyd George to the French idea. Yesterday the German press featured Lloyd George's opposition to France's "rapacious demands" and in so-called pro-British circles of the Wilhelmstrasse government hitherto disposed to feel justified in their leaning toward Great Britain with which attitude the conservative press has disagreed and often turned reproaches upon the government, today there is blank amazement.

Officers Are Staggered.
Those quarters are by the ears over the report that Premier Lloyd George agreed to the reported figures. This, if confirmed, promises pretty well to destroy the illusion that Great Britain would protect Germany against too impossible demands by France.

Perhaps the only quarters where the news of the reparations figures was received with some satisfaction was among some extreme radical leaders, who consider that the more staggering a sum fixed by England and France for the exploitation of Germany the more quickly would there be an intense spirit of revolt of the people against "capitalist slavery."

None of the high government officials desired to be quoted on the news from Paris until official confirmation is in hand as some of them professed that they still could not believe that \$55,000,000,000 was the sum really meant by the allied conferees.

A child that has intestinal worms is handicapped in its growth. A few doses of White's Cream Vermifuge destroys and expels worms; the child immediately improves and thrives wonderfully. Price 30c per bottle. Sold by Ohio County Drug Co.

INANIMATE OBJECTS MOVE AT WILL OF CHILD MEDIUM

Berlin, Jan. 29.—Reports of a child with magnetic powers are causing great excitement in the village of Dietertshelm, in Bavaria.

The child, a girl of 9, is declared to have a power of putting lifeless objects into motion without any intervention on her part.

These miracles are reported. When she enters a kitchen, for instance, logs of wood from the kitchen fire move about and roll off after her. A large cooking pot jumped from the fire and flew against the wall. Potatoes, boiling in the pot, jumped out onto the hob, while a pair of wooden clogs became so agitated that they went straight thru the window.

Medical science, in the persons of Dr. Bohn, of Nurnburg; Dr. Max Schrench, and Dr. Aigner, have examined the child before five witnesses, and, according to their statements the child possesses the powers of a medium.

The child and her mother were persecuted by the local peasantry, being charged with witchcraft.

Periodic Bilious Attacks.

Persons subject to periodic bilious attacks will observe that their appetite fails them just before an attack. That is, they do not really crave food but eat because it is meal time. If they will eat only a light meal and no meat, then take two of Chamberlain's Tablets the attack may be avoided. m

PREMIERS AGREE ON REPARATIONS TERMS

Germans To Get Formal Notice Feb. 28; Lend Lease With Austria.

Paris, Jan. 29.—"It was a remarkable achievement," Premier Lloyd George.

"It was a complete success," Premier Briand.

These statements were made tonight by the two entente premiers following the adjournment of the allied council at which the German reparations on a sliding scale of annuities were fixed at approximately \$60,000,000 and the program of German disarmament arranged.

Premier Lloyd George will depart for London tomorrow and Premier Briand will immediately draw up his address to the Chamber of Deputies, in which he will seek to convince the legislators that he had driven the best possible bargain on reparation from Germany.

The reparations schedules were brought before the executive meeting of the council this afternoon and adopted. It was announced that copies had been forwarded to Berlin and that the German delegates had been summoned to London on February 28 to receive the arrangement formally. London was substituted for Geneva as the place of meeting.

Disarmament Date Fixed.

It was decided that the disarmament of Germany according to the Versailles treaty is to be concluded by the end of June. It was arranged for the prolongation to the allies for the occupation of the Rhineland and the possible occupation of the Ruhr region. The Germans are to be notified as to these sanctions at the London conference.

The Brussels financial conference will reopen February 7.

At the session this evening there was another discussion of the Austrian situation and the allies agreed to forego a part of the reparations and other debts from Austria, also calling a conference of Austria's neighbors to consider the matter of assistance to the embarrassed remnant of the dual monarchy. An allied commission will be appointed to investigate the whole matter of Austrian finances.

Just before adjourning the conference passed a resolution calling for a closer union among the allies for the preservation of peace. It was pointed out that such an agreement is the surest guarantee of the peace of the world and the execution of the treaties.

Simultaneously notice was served on Germany that unless she executes the disarmament program she will be excluded from the League of Nations. Coupled with this was a threat to seize the Rhine customs in the event that there is a failure on the reparations schedule and the Berlin government is advised that it must consider that a fifteen years' occupation of the Rhineland dates from the first payment.

State of Ohio, City of Toledo,

Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1936. A. W. GLEASON, Notary Public.

Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, etc.

Hall's Family Pills for constipation.

BLIND GIRL GRADUATES FROM PUBLIC SCHOOLS

New York, Jan. 28.—Born sightless and believed mentally defective fourteen years ago, Rosalie Cohen graduated today from Public School 127 in Brooklyn, distinguished as the only blind child who ever succeeded in winning a diploma in one of the city's elementary or grammar schools.

She ranks 100 per cent in all her scholastic studies except English, in which she was marked 90 per cent.

She is an accomplished musician and dancer, skilled in domestic science and adept with the needle, having made the graduation dress which she wore.

Miss Cohen will go to High School and later enter college to prepare herself as a teacher for the blind.

All her school work is typewritten.

For Children.

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most effective in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers. m

Illinois Central Directs Attention to The Grade Crossing Problem

For the four-year period ended December 31, 1930, there were 4,350 persons killed and 12,350 persons injured in automobile grade crossing accidents in the United States.

For the same period there were 158 persons killed and 659 persons injured in automobile grade crossing accidents on the Illinois Central System. Analysis of these cases shows that crossings considered the safest are actually the most dangerous.

A serious automobile grade crossing accident, involving personal injury or loss of life, is usually followed by a demand upon the railway for the elimination or "protection of the crossing involved."

Crossing gates do not entirely eliminate accidents. People become educated to rely upon the gateman instead of upon their own faculties. If the gateman errs, the danger of accident is very great.

Electric warning bells do not entirely eliminate accidents. If they ring a great deal, automobilists disregard them. In addition, there is always the possibility that a bell may not be in order just at the moment of greatest danger.

Crossing flagmen are not infallible. The human element enters into most accidents, and crossings flagmen are like other human beings. Some of the most disastrous automobile grade crossing accidents have occurred at crossings where flagmen were on duty.

One of the results of crossing "protection" is to teach the public that crossings are safe. The opposite should be taught. All railway crossings are dangerous—the "protected" as well as the unprotected crossings. This should be impressed upon the minds of everybody, beginning with the children in the schools.

There are about 8,000 grade crossings on the Illinois Central System. It would cost approximately four hundred million dollars, or substantially more than the combined stock and bond issues of the Company, to eliminate them by separation of the grades. The following is quoted from the report made by the Grade Crossing Committee of the National Association of Railway and Utilities Commissioners at Washington in November 1930: "To eliminate all grade crossings in the United States would probably cost as much as all the railroads in the United States have cost."

Outstanding features of this question are 1—Inability of the railways to eliminate all grade crossings at any period within present vision. 2—The unreasonableness of some communities insisting upon the railways doing things for them that cannot be done for all. Every community has its dangerous crossings.

One state could not reasonably expect the railways to eliminate all of its grade crossings unless the same thing were done in neighboring states—in all states. The same principle applies to cities and towns.

The railway grade crossing problem is usually considered from two viewpoints—the railways and the public. There is the viewpoint of engineers and firemen, which should also be considered. Their duties are nerve-racking, and the habit of automobilists in racing to crossings, and darting upon the track immediately in front of locomotives, has a great tendency to confuse and distress them. They do not want to be involved in accidents causing personal injury or loss of life. They ought to have some assurance that an automobile will be brought to a stop before it is permitted to cross a railway track.

The benefits derived from the elimination of grade crossings by the construction of overhead bridges and underpasses—the only plan promising absolute safety—accrue largely to the public in safety and convenience. Therefore, when crossings are eliminated, the expense should be divided on some fair basis between the taxpayers receiving the benefits and the railway. If the people of a community paid in proportion to the benefits received when a crossing is eliminated, demands for elimination would be less frequent. More crossings could be eliminated.

The automobile, in proper hands, is an agency of safety at railway grade crossings. It can be driven up close to the tracks and stopped in perfect safety. That cannot always be done with a spirited horse. Therefore, the increasing use of the automobile and the decreasing use of the horse should be solving the grade crossing problem, instead of making it worse.

We recognize there are crossings that should be eliminated, but the crying need is for some plan of action that will prevent loss of life and destruction of property in automobile grade crossing accidents that can be put into effect immediately. One practicable remedy, which would cost but little, would be to inaugurate a great crusade against carelessness of automobilists at railway grade crossings. Require them to Stop, Look and Listen. No automobilist who does that will ever meet with an accident at a railway crossing.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,
President, Illinois Central Railroad Company.

"ITS WONDERFUL" SAYS THIS WOMAN Feels Like Praising Tanlac To Skies After What It Has Done For Her

"I have just finished my second bottle of Tanlac and am already rid of troubles that bothered me for three years," said Mrs. Chas. Grounds of 111 Fifteenth St., Ashland, Ky.

"I could scarcely eat anything without suffering from indigestion. After every meal I had a heavy feeling in the pit of my stomach, with a smothering sensation and violent palpitation of the heart. These troubles got so much worse at night I often had to get up and walk the floor in order to breathe. I was so nervous it was almost impossible for me to get a good night's sleep. My kidneys bothered me and I had severe pains in my back and sides. I was badly constipated and subject to terrible headaches, in fact I was in such pain nearly all the time I could hardly get around."

"I kept reading and hearing about Tanlac I decided to try it, and now I actually feel like a different woman. I have a splendid appetite and can eat just anything I want and never have any bad after effects. I no longer suffer from constipation or headaches, my kidneys have quit bothering me and my nerves have quieted down. I can now sleep soundly for eight hours or more and wake up feeling fine and full of energy. Tanlac has brought me out so wonderfully. I feel like praising it to the skies and I never expect to be without it."

Tanlac is sold in Hartford by Dr. L. B. Bean; in Beaver Dam by R. T.

Taylor, Jr.; and in McHenry by S. J. Tichenor.—Advertisement.

GRADE CROSSINGS

There is a great need for a crusade against the careless automobile driver, according to a statement from President C. H. Markham, of the Illinois Central Railroad.

President Markham says that the elimination of all railway grade crossings, although desirable, would be impossible that the elimination of the 8,000 crossings on the Illinois Central System would cost more than the combined stock and bond issues of the road. He says further that the protection measures taken by the railways fail to solve the growing grade crossing problem because they teach the public that protected crossings are safe, whereas the reverse should be taught.

The only feasible plan to check the growing toll of deaths, injuries and losses to property at grade crossings, he says, is a relentless campaign to make drivers "stop, look and listen" at every crossing.

Mr. Markham points out that in the last four years, ending December 31, last, 4,350 persons were killed and 12,750 were injured in automobile grade crossing accidents in the United States, and that during that time 158 persons were killed and 659 were injured in such accidents on the Illinois Central System. He declares that an analysis of the cases shows that crossings considered the least dangerous actually proved the most dangerous.

The Illinois Central's executive declares that one state or community cannot consistently demand that its railway grade crossings be eliminated, unless some means were provided whereby the same thing could be done in other states or communities.

He also submits a viewpoint of the situation which he says is rarely con-

sidered, that of engineers. In their nerve racking duties they should be freed from the strain of having automobilists race over crossings directly in front of moving trains, he says.

Since the benefits derived from elimination of grade crossings accrue largely to the public in safety and convenience, Mr. Markham proposes that where the elimination of a crossing is necessary a plan be worked out whereby the cost would be divided upon a fair basis between taxpayers who receive the benefits and the railway. While this would result in fewer demands for crossing elimination, it would be possible thereby to do away with more.

"The automobile, in proper hands," Mr. Markham says, "is an agency of safety at railway grade crossings. It can be driven up close to the tracks and stopped in perfect safety. That cannot always be done with a spirited horse. Therefore, the increasing use of the automobile and the decreasing use of the horse should be solving the grade crossing problem, instead of making it worse."

FARM AGENTS END MEETINGS

Lexington, Ky., Jan. 29.—Kentucky's 67 county farm agents and 111 home demonstration agents completed their respective annual conferences at the State College of Agriculture Monday, January 31. Separate meetings of both conferences were held in the mornings, afternoons and evenings of the session during which the agents discussed problems relating to the furthering of the work in their counties during the coming year. In addition to local speakers who addressed the agents a large number of special speakers talked to them on subjects relating to their work.

FRIDAY.....FEBRUARY 4

ANNOUNCEMENTS

For County and District
Offices.

We are authorized to announce
the candidacy of the following citi-
zens, subject to the action of the Re-
publican party in the primary election
August 6, 1921:

For Circuit Clerk:

FRANK BLACK—Hartford R. 2.
V. A. MATTHEWS—Fordsville.
O. N. STEWART—Beaver Dam.

For County Judge:

MACK COOK—Hartford.
WINSON SMITH—Select.
W. S. DEAN—Dundee.

For County Clerk:

ROY H. FOREMAN—West Beaver
Dam.

ISOM MITCHELL—Bell's Run.
SEP T. WILLIAMS—Rob Roy.
MODE SCHROEDER—N. Rosine.
J. E. MITCHELL—Dundee.
E. G. BARRASS—Hartford.
M. F. CHUMLEY—McHenry.
JAMES A. TATE—Hartford.
M. A. EMBRY—Baizetown.

For Jailer:

CHARLIE SMITH—Hartford, R. 2.
WORTH TICHENOR—Hartford.
JOHN T. KING—Hartford.
S. A. LEE—Sunnydale.
BARNETT L. TINSLEY—Hart-
ford R. F. D. No. 5.

For Magistrate,

(Rosine District):
J. WALTER TAYLOR—Cromwell.
J. N. LOGSDON—Rosine.

It's a sure thing that winter is
broken, as no groundhog could have
seen his shadow in Hartford either
day or night, during Monday, Tues-
day or Wednesday.

We second the motion, say amen,
or whatever may be necessary to ap-
prove the wheelbarrow-bicycle ar-
ticle in the current issue of the Herald,
and we will, in passing meekly sug-
gest that if some way could be de-
vised by which a bit of mud and filth
could be removed from the crossings,
so that people could get from one
side of the street to the other in de-
cent shape would help matters con-
siderably. We detest a chronic
knocker and love a booster, but it
takes a shovel or scraper to move
mud.

We heartily approve the refusal of
President Wilson to pardon Eugene
V. Debs, who is serving a ten-year
sentence in the Atlanta Federal pri-
son, for what virtually amounts to
treason. Taking it for granted that
Debs was beyond doubt, guilty, he
ought to be required to take all that
is legally coming in the way of pun-
ishment. He occupied the position
of a high-up, in the councils of the
party or clan to which he belonged,
and when one who has attained the
position of leader of a considerable
number of men, which recognition
was given to Debs, he ought to be
made the brightest and most shining
example of when he deliberately vi-
olates the laws and rules of the land,
especially in this true under condi-
tions as existed when this prisoner
was called to halt.

The "Movies" are being given a lot
of free, but adverse advertising. A
general crusade against what is com-
monly termed as running to sexual-
ities, is being waged almost every-
where. We are not much of a pic-
ture show fan, not that we do not
like a good screen show, but some-

how we have not formed the habit of
attending. Locally, we can't recall
that any complaints have been made
at the character of plays exhibited,
but reformers, preachers and a lot
of newspapers throughout the country
are registering protests against many
of the screen productions of the pres-
ent day. Although the shows seem
to be drawing good houses now, yet
a reversal of form is almost bound to
set in and in that day quite a few of
the big film producers are going to
have oodles of junk on their hands.
The country, of late, has been rather
rampant for the sensational—noth-
ing else it seems would appeal—but
stock-taking time is just about at
hand and those who are investing
millions in films that ought not to be
shown would do well to sit up and
take notice.

COURT UPHOLDS SURFACE RIGHTS OF MINE OPERATORS

Frankfort, Ky., Feb. 1.—Rights of
the owner of the underlying minerals
to use the surface of land in connec-
tion with mining operations were up-
held today by Judge Sampson of the
Court of Appeals, who refused Ben
McIntire, Letcher County, an injunc-
tion to restrain the Marion Coal Com-
pany from building houses, tipples,
stores and roads on 140 acres of land,
the mineral rights in which McIn-
tire's father had sold the coal com-
pany's predecessors.

The court in this instance held
McIntire to the letter of the deed, by
which the company had a right to use
the surface "in every manner that
may be deemed necessary or conven-
ient for the full and free exercise of
the rights and privileges conveyed."

Under this contract, the court said,
the company may use the entire sur-
face, leaving McIntire free ingress
and egress to his houses and build-
ings.

ELIZABETHTOWN NEWS AND MIRROR CONSOLIDATED

Elizabethtown, Ky., Feb. 1.—A
deal was closed this morning where-
by the Elizabethtown News, owned
and edited by Col. H. A. Sommers,
and the Elizabethtown Mirror, own-
ed and edited by Keen Johnson, were
consolidated, the plant of the Mirror
Printing Company having been
bought by the Elizabethtown News-
Mirror Printing Company, a recently
organized corporation, by the busi-
ness men of this place. Col. H. A.
Sommers is president of the new cor-
poration and W. C. Montgomery, vice
president of the First Hardin Nation-
al Bank, is secretary and treasurer.
The Elizabethtown News will be con-
tinued under the same name, pub-
lished by the Elizabethtown News-
Mirror Printing Company, with Col-
onel Sommers as its editor. The sub-
scription list of the Mirror will be
continued by the new publishing
company under name of the Eliza-
bethtown News.

Mr. Johnson is an ex-service man,
having served overseas and will take
a four years' course of vocational
training at Lexington in journalism.

CHILE AND PERU

HAIL U. S. FLEETS

Santiago, Chile, Feb. 2.—Admiral
Hugh Rodman and the higher officers
of the United States Pacific fleet,
which is at anchor at Valparaiso, were
guests of honor at a banquet given in
this city last night by President Ale-
sandrini of Chile. The function mark-
ed the close of a busy day of recep-
tions and calls of ceremony by the
American officers. During the dinner
toasts to President Wilson and
President-elect Harding were propos-
ed, and there was an exchange of
felicitations between Government of-
ficials and the visitors.

LIBERTY BOND PRICES

Liberty 3 1/2s	91.80

CENTERTOWN.

Miss Agnes Duncan, who is teach-
ing in the graded school here, vis-
ited her home at Bowling Green, last
Saturday and Sunday.

Miss Flossie Mason, of Rockport,
was the guest of Miss Margaret Ben-
ton a few days ago.

Dr. J. L. Smith and J. M. Kinche-
loe were in Owensboro last Monday.
Rev. L. W. Tichenor and wife vis-
ited in Dundee last Saturday and Sun-
day.

Mrs. Lewis Robertson, of Moorman,
visited relatives here last week.

Mrs. Earl Tichenor visited her par-
ents, Dr. and Mrs. Baird in Hartford
last Tuesday.

Mrs. Charlie Carter and Mrs. Silvia
Simmons, of Askins, visited relatives
here last week.

Worth Tichenor, of Hartford, was
in town Wednesday.

STRAY STREAKS

(By Fluke McFluke.)

When looking at that big, new
smoke funnel down at the light fac-
tory of Ed. Silas, Jack and Lem, we
were reminded of an old saying: big-
bark, little bite.

I. D. Claire was up here the other
day and he told us that being a new
man, so to speak, and not so very
well known in Central City, he was
able to move in top-notch society.

Ernest Birkhead keeps pestering
us about that tobacco Will Brown
gave us some time ago, and just like
as not, or probably it's more likely
that that good wife of his will have
to be introduced to him some two or
three times some of these days, be-
fore she will know who Ernest is.

We haint axed but two or three
men who've been in this office, there's
been lots of 'em too, in the last week
or ten days, if they were candidates
who have given a negative answer.

Battie Nail highly resents the
claim of I. D. Claire that he (I. D. C.)
had anything whatsoever to do with
his fame. Bat says he has been fa-
mously known in these parts for nigh
on a half century and that his picture
hangs in places he dare not go him-
self, as it's more than likely he would
have to execute a bond before he
could get home to his family.

Mr. Harding may go further, do
larger fishing and have a lot said of
him, but I'll bet a jug of buttermilk
by-crackie, that he didn't have half
as much fun as John Moore, Doc Pir-
tie, Ed Barrass and yours truly, will
have when we make that annual pil-
grimage to Grassy in May, coming.

Kaiser Rial wants to buy or bor-
row a piece of meat skin, not larger
than, say 6x6, for the purpose of
hanging over his shebang in which
he pops his corn. Said meat rind
must not yield more than 1 drop of
juice per each half minue, as it
would be wasteful.

WILSON TO CALL SENATE FOR MAR. 4, ON REQUEST

Washington, Feb. 1.—President
Wilson is expected to issue soon, on
request of President-elect Harding, a
call for a special session of the new
Senate for March 4, to act on Mr.
Harding's nominations of Cabinet and
other important officers.

Such a special session is custom-
ary at the change of each Administra-
tion, and usually lasts only a few
days.

Mr. Harding's request that the
President call the new Senate togeth-
er was contained in a telegram to
Senator Henry C. Lodge, Massachu-
setts, the Republican leader, and was
transmitted to the White House to-
day by Senator Oscar Underwood,
Alabama, the Democratic leader, act-
ing at the behest of Mr. Lodge.

Mr. Harding will issue after his in-
auguration a call for a special session
of the full Congress for early spring
but he desires to have the more im-
portant of his official appointments
confirmed before that time so that
the Administration machinery can be
permanently established with the
least possible delay.

ADMINISTRATOR'S SALE.

On February 12, 1921, at about 10
o'clock, a. m., I will sell at public
outcry, to the highest bidder, one set
of blacksmith's tools and appliances
and a lot of open accounts. Sale will
take place at the shop of Swain &
Swain, Centertown, Ky.

U. S. CARSON, Admr.,
J. B. Swain, deceased.

AUTO STALLS; DISGUSTED OWNER BLOWS IT UP

Hazelhurst, Miss., Feb. 1.—Ed My-
ers, a Franklin County road builder,
was so disgusted when his automobile
stalled today that he blew it up with
dynamite. The explosion was heard
fifteen miles and negro inhabitants of
Martinsville believing the world had
come to an end, went to their knees
in prayer. Parts of the automobile
were found hanging in trees and scat-
tered over a wide section.

COOLIDGE'S OVERCOAT STOLEN IN Y. M. C. A.

Atlanta, Ga., Feb. 2.—Atlanta's Po-
lice Department admitted today that
Calvin Coolidge's overcoat had been
stolen while the Vice President-elect
was visiting here last week and that
the police could not find it. The pub-
lic was asked to help.

The coat was taken while the Vice
President-elect was inspecting the Y. M. C. A. Building, and because of
civic pride the detectives wanted to
return it without the world knowing
that the theft had been committed
here.

Ford
THE UNIVERSAL CAR

ANNOUNCEMENT

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following
statement:

The price of the FORDSON tractor has been reduced from \$790.00 to \$625.00, ef-
fective immediately.

This price change has been made possible through lower costs of materials and
the fact that we are now located in our new tractor plant with greatly increased eco-
nomic manufacturing facilities in immediate connection with our foundry and machine
shops and large blast furnaces where iron is poured directly from the ore, giving us
maximum efficiency with the power to reduce cost of production, and down comes the
price in line with our policy to market products at the lowest possible figure without in
any way affecting our high standard of quality.

We are particularly pleased in being able to bring about this big reduction in price
at this time because the farmer needs all the help we can give him and this big cut in
price will be the means of placing a valuable power unit within the reach of practically
every one of them, not to mention industrial and commercial concerns which likewise
have benefitted through its use and are already realizing, to a much greater extent, its
value as a power and hauling unit. But particularly has the FORDSON tractor prov-
ed a most valuable factor in the saving of farm labor, at the same time increasing the
per acre crop yield as well as making possible a utilization of previously uncultivated
land, to say nothing of removing no end of drudgery.

There is no question that the use of machine power on the farm is the greatest ad-
vancement made in the development of agriculture, not only in money saving and mon-
ey making results, as well as raising the standards of living on the farm to a much
higher level, but because of its proven value in making every type of land more pro-
ductive and consequently our desire to place the FORDSON within the reach of all.

THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES,
which are already at the lowest possible figure and now with rock bottom reached on
the tractor price a further reduction in price in either the car, truck or tractor is out of
the question; in fact, the big price cuts have been made in anticipation of continuous
maximum production and increases may be necessary before long if a large volume of
new business is not obtained. Therefore, present prices of Ford products cannot be
guaranteed against possible increases.

Ask for the book "The Fordson at Work," which will be supplied free of cost. Let
us demonstrate the value of a Fordson on your farm, in your factory, lumber yard,
coal yard, or in any general hauling or power work you have to do and let us have your
order for a Fordson.

BEAVER DAM AUTO COMPANY

BEAVER DAM, KY.

LOUISVILLE MARKETS.

Cattle—Trade was a slow and drag-
gy affair and prices about on a parity
with opening day's decline. Heavy
steers are in ill-repute and hard to
get buyers to take hold of that class
of cattle.

Quotations: Prime heavy steers
\$8@8.35; heavy shipping steers \$7-
25@8; medium to good steers \$6.50
@7.25; light steers \$5.50@6.50; fat
heifers \$6@7.50; fat cows \$5.50@
6.50; medium cows \$4@5.50; cut-
ters \$3@4; canners \$2.75@3; bulls
\$4@6; feeders \$5.50@7.50; stock-
ers \$4@5.50; choice milch cows \$63
@75; medium to good \$35@65;
common to medium \$20@35.

Calves—Market 50c off. Best
veals \$11@11.50; medium to good
\$5@8.50; common to medium \$3@5.

Hogs—Prices steady with a good
demand for the best hogs, 200 pounds
and up at \$9.75; 120 to 200 pounds
\$10.25; pigs 120 pounds down \$9.50
throwouts \$8 down.

Sheep and Lambs—Trade generally
unchanged. Best sheep quotable at
\$3 down; bucks \$2 down. Best lambs
ranged from \$7@10; seconds \$4@5.

A drop of 3 to 5c in egg prices is
noted with prediction of further de-
clines.

Local produce dealers quote buying
prices as follows net to shippers the
shipper paying freight and drayage
charges:

Eggs—47@48c dozen.
Poultry—Hens 24@26c lb.; large
spring chickens 20@24c lb.; small
24@32c lb.; old roosters 12@13c
lb.; stags 20c lb.; young ducks 24c
lb.; No. 1 turkeys 36c lb.; geese 18
@20c lb.; guineas 30c each, young
guineas 50c each.

COURT O. K.'S SEIZURE OF BOOZE CARRIERS

Washington, Jan. 17.—The Su-
preme Court today upheld the right
of the police to seize and confiscate
an automobile on a part time contract
prohibition law. The court's decision
was handed down in an appeal
brought from the District Court of
Georgia by J. W. Goldsmith, Jr., an
automobile dealer. Goldsmith sold
a automobile on a part time contract
and the car was seized before the pay-
ments were completed when the own-
er was arrested for violating the
liquor law.

The dealer contended that he had
no knowledge in selling the car as to
the purpose for which it was to be
used and contended that the equities

of the purchaser only should be seiz-
ed. The District Court ruled against
him and the Supreme Court today af-
firmed its decision.

BANK DEPOSITS, UNCLAIMED

In compliance with article 592,
Ky. Statutes the Citizens' Bank of
Hartford, Ky., hereby publishes the

MASTER COMMISSIONER'S SALE.

Ohio Circuit Court.
Brent Hunley, et al., Plaintiffs.
vs. Notice.

May Hunley, et al., Defendants.
By virtue of a judgment and order
of sale entered in the above styled ac-
tion at the November term 1920, of
the above styled court, directing me
as commissioner of said court to sell
for the purpose of first paying the
cost of the above styled action, to-
gether with the cost of this sale and
dividing the proceeds among the par-
ties entitled thereto, as their inter-
ests may appear, I will offer for sale
at public outcry to the highest and
best bidder at the court house door
in Hartford, Kentucky, on Monday,
February 7th, 1921 (it being the first
day of the regular term of the Ohio
County Court) at the hour of one o'-
clock P. M., upon a credit of six and

twelve months the following describ-
ed property viz:

"Lying and being situate in Ohio
County Ky., on the Hartford and
Paradise public roads and bounded
as follows: Beginning at two black
oaks corner with E. Williams and C.
G. Taylor and A. L. Bennett; thence
N. 1 E. 204 poles to a sweet gum
corner to Sam Bennett land in M. H.
Neal's line; thence with Neal's line N.
89 W. 94 poles to a black oak on the
West side of said road; thence S. 1
W. 102 poles to a stone corner with
W. P. Graves on said road; thence
with his line N. 89 W. 18 poles and
6 links to a stone in a small drain a
corner to Jubilee (No. 99) School
House lot, thence with a line of same
and Ford Heirs S. 1 W. 102 to a stone
thence S. 89 E. 112 poles to the be-
ginning containing one hundred and
thirty (130) acres more or less and
being same land conveyed to said E.
G. Hunley by Wm. T. Reid April 23,
1856 and being recorded in deed
book "R" page No. 19, Ohio County
Clerk's office, to which reference may
be had.

Excepting out of said boundary,
however, the following boundary:

"Beginning at a stone corner with
E. Williams and C. G. Taylor and A.
L. Bennett; thence North one degree
E. 95 poles to a stone in Bennett's
line; thence North 89 degrees West
66 poles to a stone; thence South one
degree West 95 poles to a stone;
thence South 89 degrees East 66 poles
to the beginning containing 39 acres
more or less, and being the same
land conveyed to J. H. Hunley by T.
E. Hunley on March 18th, 1908 and
recorded in Book No. 36, page 329,
Ohio County Clerk's office."

The second tract ordered sold is
bounded and described as follows:

"Located and situated in Ohio
County, Kentucky, on the Hartford
and Paradise road. Beginning at a
stone, corner with E. Williams and
C. G. Taylor and A. L. Bennett;
thence North one degree E. 95 poles
to a stone in Bennett's line; thence
North 89 degrees West 66 poles to
a stone; thence South one degree
West 95 poles to a stone; thence
South 89 degrees East 66 poles to the
beginning containing 39 acres more
or less, and being the same land con-
veyed to J. H. Hunley by T. E. Hun-
ley on March 18, 1908 and recorded in
Book No. 36, page 329, Ohio Coun-
ty Clerk's office.

All coal and mineral underlying
all the above described tracts of land
together with all rights and privi-
leges, as is provided in Deed of Date
October 14, 1896, from E. G. Hunley,
etc., to Smith & Ford, of record in
Deed Book, 19 at page 395 are here-
by reserved as provided in said deed.

The purchaser will be required
to execute bonds payable in equal in-
stallments in six and twelve months,
bearing interest at the rate of 6% per
annum from date until paid, said
bonds to have the force and effect
of a judgment, and a lien will be
retained on the property sold to fur-
ther secure the payment of said
bonds.

Given under my hand this 19
day of January, 1921.

OTTO C. MARTIN, M. C.
Barnes & Smith, Attorneys.

TELEPHONES.

WALL TYPE

Western Electric, Kellogg, and Stromberg.

DESK TYPE

Western Electric and Kellogg.

Grabaphone

In Wall and Desk Type give excellent SERVICE.

BATTERIES

That are made for telephone service will give better satisfaction and longer life than any battery on the market.

REPAIRS

If your telephone does not ring good, better let me equip it with this permanently adjusted ringer and save you trouble.

The repeated laboratory and switch-board tests have proved the efficiency of this Generator.

Mr. S. L. King has purchased the insurance business of Holbrook & Baize, and has opened an office over the general store of W. H. Baize, adjoining the Bank of Hartford building.

If you would live in a better town, under better conditions and be better yourself, then see that your presence is recorded in the meeting to be held at the College Auditorium, Feb. 10 at 7:00 p. m.

WANTED—An automobile. Will trade 18 1/2 acre farm with horse, cow, barn and house, located at Beda, Ky. What have you?—B. H. Mills, 1301 Triplet St., Owensboro, Home phone 240. 3013

Mrs. Vernon Ligon arrived here Monday to spend a week with her parents, Dr. and Mrs. J. R. Pirtle. Mrs. Ligon will go to Henderson Monday to spend a few days with Mr. Ligon's parents before returning to her home in Frankfort.

Miss Norlae Barnett, who was forced to temporarily relinquish her position as teacher in the Mt. Vernon High School, on account of a mild attack of typhoid, has recovered her normal condition and left last Friday to resume her position.

Hoyt L. Taylor, who has been here for some time securing an appraisalment of the L. & N. lands throughout the County, has been transferred to Mobile, Ala., where he is to be similarly engaged. Mrs. Taylor will join Mr. Taylor at an early date.

Mr. Robert Franklin Bell, of Whitesville, and Miss Laura Chrisler, of Owensboro, were united in marriage at the home of the latter, Tuesday of this week, in Owensboro. Mr. Bell is a son of Robert Bell, of Whitesville, and a cousin of Mrs. J. P. Casebier, of Hartford.

Prof. J. F. Bruner and Roy H. Foreman, together with Misses Mary Marks, Martha Stevenson, Alice Taylor, Winnie Wilson and M. S. O. Keown, composing the faculty of the local graded and high school, spent last Friday in Owensboro, visiting and inspecting the methods employed in the schools of that city.

COMMUNISTS MAKING TROUBLE

All Yugoslavia is being threatened by the activities of the communists, who are seeking to establish a soviet regime in the country. At Belgrade a great clash occurred in front of the communists' meeting hall when the police tried to suppress demonstrations. More than 200 were wounded in the rioting, during which the communists threw stones and the police used bayonets. It was found that many of the leaders of the disturbances were Russians.

HAIR CUT 25 CENTS!

Boston, Jan. 29.—Frank V. Bruno, barber, hasn't raised his prices for haircuts and shaves in twenty-four years.

The prices in Bruno's shop are: Hair cut, 25 cents; shave, 20 cents.

Bruno's barber shop is over the Tremont Theater.

He has been a barber since 1897. Bruno hasn't an automobile or a big fortune. But he has a great number of friends and a big reputation.

WINNES JURORS

STILL DISAGREE

Hartford, Ky., Feb. 2.—Apparently hopelessly deadlocked forty-eight hours after receiving the case, the jury trying Dr. Winnes, former state veterinarian, for the murder of Miss Laura Parsons, Pine Mountain Settlement school teacher, last September retired tonight without a decision. Twice today the jury sent word to Judge W. T. Davis that it was unable to agree, but the judge refused to dismiss it.

Tonight Judge Davis declared that if a verdict is not reached by morning he will again address the jury, urging the importance of a decision. He is "tired of hung juries" he said.

Dr. Winnes was in the courtroom with his family all day. He seems convinced that he will be acquitted. The rumor is still current that the jury stands eleven for acquittal and one for conviction.

REICHSTAG SAYS DEBT TOO HEAVY

Ex-Chancellor Appeals To Workers Of Europe For Revision Of Reparations.

Berlin, Feb. 2.—The Reichstag parties, through their leaders, today seconded the Government's attitude on the Paris agreement. The debate which lasted three hours, was dispassionate, barring interruptions during the Communist leader's speech, the sole dissenting note in the parliamentary chorus of approval.

Dr. Paul Levy, for the ultra-radicals, told the Reichstag that the present situation was mirth-provoking, inasmuch as it recalled the outbreaks of official and bourgeois anger after the armistice terms, the Versailles treaty and the Spa agreements were published. He added that, despite excessive protestations, the Government invariably subsequently discovered that there was no choice but to sign.

President Loeb, at the conclusion of the debate, commended the parties and their speakers on the unanimity of their sentiments. He hoped the Entente would listen to the warning voices and spare the German people and itself the inevitable consequences unless the reparation terms were radically revised.

Dr. Schiffer, former Minister of Justice, and Herr Mueller, former Chancellor, both approved the declaration by Dr. Simons and trusted that the counter-proposals would lead to an agreement with the Entente.

Herr Mueller declared that the workers of all countries were endangered by the reparation proposals, which would convert the present economic crisis into an European catastrophe. He appealed to the workers to bring about negotiations for a practical solution.

He admitted that the disarmament obligations could no longer be avoided if the German people were to be spared fresh and grievous visitations.

Dr. Hergt, for the National party, said he would have liked a more decisive tone in Dr. Simons' observations on disarmament.

"East Prussia," he went on, "expects of the Fatherland that she will not be abandoned in the face of the Bolshevik dangers. No German ought to assist the Entente in imposing unprecedentedly hard disarmament conditions."

Expressing approval of the Foreign Minister's views on reparations, Dr. Hergt concluded:

"May the German people in the hour of decision find itself equal to the occasion."

CENTRAL GROVE.

Mr. and Mrs. Leslie Stewart visited Mrs. Stewart's mother, Mrs. C. B. Howard, at Hartford, Wednesday.

The successful school taught here by Oscar Stewart, closed Friday.

Mr. Hurchell Hubbard lately received news that his father, of Hill, Oklahoma is very ill of influenza. Mr. Hubbard left at once for his father's home.

Mr. and Mrs. Willie Roeder are the proud parents of a baby girl, born January 22. The young lady, Mildred Lois and the mother are both getting along nicely.

Mrs. R. H. Brown and son, Elbert, visited her daughter, Mrs. Joy Porter, of Midway, recently.

Mr. J. W. Roeder and daughter, Mrs. Carrie Martin, are visiting Mrs. Hannah Roeder, of Sullivan, Ind.

Mr. Hubert Rowe, of Centertown, visited his cousins Ellis and Cecil Roeder, recently.

3,130 STATE TEACHERS HAVE 1920 CERTIFICATES

Frankfort, Ky., Jan. 22.—One thousand one hundred and forty-two first grade teachers' certificates; 1,932 second grade certificates and fifty-six State certificates were issued by the State Department of Education during 1920, according to a report issued here today. There were 5,760 applicants for first and second grade certificates and 101 for State certificates. The next examinations will be held in May.

Barred Rock Bred to Lay and Weigh

I am in better position to please my customers than ever before. For twenty years I have culled and mated until I now have a yard of Barred Rocks that is the peer of any.

This year I have mated my fine cock that produced such fine birds last year as a cockerel, with the best hens and pullets and am ready to furnish eggs at \$3.00 for 15 or \$5.00 for 30.

I have also mated three extra heavy well-made and finely barred cockerels with a choice lot of hens and pullets and am ready to furnish eggs at \$1.50 for 15.

A few extra fine cockerels and pullets at a bargain if taken at once. Eggs for incubator for 100, prices on application. 301f

JNO. B. WILSON,

DEAR BUYERS:

We continue to place our advertising before you in order to keep the name of our store constantly before you. We want you to become so familiar with our store and our merchandise and to feel such satisfaction with our methods of doing business, that whenever you have a need in our line you will immediately think of our store as the place where your wants can be supplied. Here we are quoting you a few of our prices which will help you remember this as the store of big values.

Hope Bleach, 15c per yard.

Yard-wide Brown Sheeting, 12 1-2c and 15c per yard.

Best Prints 15c per yard.

Apron Gingham 15c per yard.

Dress Gingham 20c to 30c yard.

9-4 Brown Sheeting 55c.

10-4 Brown Sheeting 60c.

9-4 Bleach Sheeting 55c.

10-4 Bleach Sheeting 65c.

Yours for good values,

Carson & Co.

Hartford, Kentucky.

Half Price

Beginning Monday morning we place on sale our entire line of

Ladies' Cloaks

at half price. The open winter has left us with more than we care to carry over, hence this tremendous reduction. Come, look them over, see the price ticket, divide by two, then you will have the price they will cost you. This means our

\$50.00 Coats for \$25.00

\$35.00 Coats for \$17.50

\$30.00 Coats for \$15.00

\$25.00 Coats for \$12.50

\$15.00 Coats for \$ 7.50

Ets. Etc.

Sure:—We lose; you win. If you need a cloak and fail to buy, you lose. See!

THE FAIR DEALERS

ANCIENT SPORT HOLDS BELGIANS

Up-To-Date Firearms Fail To Dispell Love For Archery.

Ostend, Belgium, Jan. 1.—In these days of ultra-modern firearms, Belgians still cling to archery with a devotion which renders the pastime almost a national sport.

The archery club at Knocke, a small seaside town, has just concluded a concourse which brought sturdy bowmen from all parts of Belgium flocking to the meet, which continued for a week. The unusual sport is shown in the American Red Cross travel film "Children of the Dunes."

According to the rules which prevail for archery contests, the entrants select their own arrows, the manufacture of which is an industry of considerable proportion in Belgium. Many of the bows are of ancient make, having been handed down from father to son for several generations.

Targets On Mast.

In the center of the club grounds is a great steel mast thirty-one meters high. In preparation for a meet it is lowered and cross-arms are fitted to the top. On those arms are fixed small bunches of feathers, and at the topmost point a plume of larger proportions. The small targets are four inches long and one inch in diameter. They are arranged on wooden pegs against which an arrow can strike. The mast is then raised and amid cheering and the music of bands, the score-keeper calls the men in their turn.

Standing at the foot of the mast, the bowmen, one after another, take keen sight at the tiny specks nearly 100 feet in the air. There is a sharp twang as the singing bowstring is released and a white arrow shoots upward among the feathery targets. It is no small task to bag one of the feathers, but many keen-eyed old bowmen down a dozen in the course of an afternoon. The one who dislocates the great plume at the top is declared king of the meet and takes down the prize made up from the entrance fees.

Mortars Announce Hits.

Every hit is signalled by the firing of small mortars touched off by a long iron poker. Thus gunpowder and arrows mix strangely in a Belgian archery meet.

The bowmen wear a small skull cap and a leather cuff which prevents the sleeve from interfering with the flight of the arrow from the bow. The arrows fall over the field in a veritable shower when the shooting is at its height; but, altho they descend with great velocity, the horn tips smack the ground sharply, little attention is paid to them by the enthusiastic archers.

Boys wearing broad-brimmed hats of heavy basketwork are constantly scurrying across the fields to bring back the shafts which have been launched at the elusive targets. Additional difficulty is added to the sport by the high winds which are so common along the Belgian coast; but, in spite of the winds, remarkable accuracy is maintained.

Everywhere thru northern and western Belgium archery meets can be seen in progress on Sundays and holidays. When a good crowd has gathered the forest of long bows and peculiar caps present a picture at a distance which recalls the ancient days when the trusty bowmen of Robin Hood lurked in the forests.

SHERIFF'S SALE.

By virtue of Execution No. 1200 directed to me, which issued from the Clerk's office of the Ohio Circuit Court, in favor of E. P. Barnes and Bro., against C. M. Cooper, I, one of my Deputies will, on Monday, the 7th day of February 1921, between the hours of one o'clock P. M. and two o'clock P. M., at the Court House door in Hartford, County of Ohio, Kentucky, expose to Public Sale, to the highest bidder, the following property (or so much thereof as may be necessary to satisfy the amount of the Plaintiff's debt, interest, and costs, and the cost of this sale) to-wit:

"A certain tract of land in Ohio County Ky., near Goshen Church and being a part of the tract of land known as the W. P. Cooper farm: Beginning at a corner of the lands of Dennis Myers and Ed Cooper Sr., and the Beaver Dam and McHenry road; thence in an easterly course with the line between the lands of said Ed

Cooper Sr.; and the old W. P. Cooper farm, 80 poles to the corner of the lands of said Ed Cooper and Albert Chinn; thence a northerly course with said Chinn's line 40 poles to a stone; thence a westerly course parallel with the first line 80 poles to the McHenry and Beaver Dam public road; thence a southerly course 40 poles to the beginning, containing 20 acres more or less, and being a part of the same land conveyed to grantor J. B. Stevens and wife as shown by deed recorded in deed book No. 31 page 45, Ohio County Court Clerk's office, known as the property of C. M. Cooper, levied upon as the property of C. M. Cooper.

TERMS: Sale will be made on a credit of six months, bond with approved security required, bearing interest at the rate of six per cent per annum from day of sale, and having the force and effect of a Sale bond, this the 19th day of January 1921.

S. A. BRATCHER,
Sheriff Ohio County.
IRIS RENDE, D. S.

SHERIFF'S SALE

By virtue of execution No. 1208, directed to me which issued from the Clerk's office of the Ohio Circuit Court, in favor of Aminda Gibson vs. W. Herbert Gibson, I, one of my deputies will, on Monday, the 7th day of February 1921, between the hours of 1:30 o'clock P. M., and 4:00 P. M., at the court house door in Hartford, Ohio County, Kentucky expose to sale, to the highest bidder, the following property, or so much thereof as may be necessary to satisfy plaintiff's debt, interest and cost, and the cost of this sale, to-wit:

"Two lots of ground in the town of Hayti, Ohio County, Kentucky, shown and designated on the plat of said town on file in the office of the County Court Clerk, as lots Nos. 33 and 33 1/2, and fronting on the South 210 feet on Lewallen Street, bounded on the East by No. 34 or the Boundary Eldson lot, and on the North by a line running S. 70 W. 210 feet to the corner of No. 32; thence with a line thereof S. 165 feet to Lewallen Street, containing something over one acre more or less, being the same property conveyed to the defendant, W. Herbert Gibson by C. H. Tinsley, and wife, by deed of date February 18, 1907, and of record in Deed book No. 29, page 324, Ohio County Court Clerk's office."

Which said real estate has been levied upon as the property of W. Herbert Gibson. Said sale will be made on a credit of six months. Bond with approved security required, bearing interest at the rate of 6 per cent per annum from the day of sale and having the force and effect of a sale bond.

Witness my hand this the 14th day of January, 1921.

S. A. BRATCHER,
Sheriff, Ohio County.
By FRAN KITCHENOR, D. S.

NOTICE TO CREDITORS

All persons having claims against the estate of J. B. Swain, deceased, are hereby notified to present the same to me, properly proven on or before March 1, 1921 or they will be forever barred.

All persons indebted to J. B. Swain and C. M. Swain, formally doing business as blacksmiths at Centertown, Ky., under the firm name of Swain & Swain, either by note or account, are requested to call and pay said indebtedness at once, for the purpose of settling said partnership business.

This January 10, 1921.
U. S. CARSON,
Admr. of J. B. Swain, deceased,
Hartford, Ky. 2913

Dollars and Cents.
Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

HEFLIN.

Mr. Goebel Thomasson of South Carrollton, visited his parents, Mr. and Mrs. Joe Thomasson from Friday until Sunday.

Mr. Andy Baird and family visited Mr. Pender Bennett Sunday.

Mrs. Pat Foster, and daughter, Marilissa visited Mr. and Mrs. N. M. Russell Sunday.

Mrs. Lottie Hefflin and brother, Mr. Herman Pirtle, were called to the bedside, of their father, Mr. A. R. Pirtle, of Owensboro, last week.

Mr. W. A. Higgs and family are moving to their home near Beda.

Miss Cora Thomasson, of South Carrollton, is visiting her parents, Mr. and Mrs. Joe Thomasson, this week.

500 PARIS MARKETS SELLING HORSE MEAT

Only Equine Steaks and Roasts Are
To Be Had At These Places;
Horse Disappearing.

Paris, Jan. 29.—More than half a million horses disappear every year, according to Georges Lefebvre, prominent French humanitarian, who says that in ten years the only horses left in Western Europe will be those preserved in zoological gardens as curiosities.

"A lesson should be learned by the extraordinary rapid numerical decline of the American buffalo," asserts Lefebvre in a manifesto to French horse-lovers.

"Fifty years ago millions of buffalo roamed the western plains. Today their number in the entire world is to be counted in scarce hundreds."

"The same thing is happening before our eyes with the horse. The buffalo was killed off because of its meat value and because of its ferocity. The horse is dying off in Europe also because of its meat value and because of its comparative uselessness beside the automobile."

"During the war when fresh meat was difficult to obtain the people of Europe—of France and England as well as Germany—made the acquaintance of horsemeat and found that it was not so bad as it had been painted."

"Providing the horse was a healthy animal and providing its blood had been drained off immediately following slaughter the meat of a horse is nourishing and can be taken even by invalids without harmful effects."

"Following this need and this discovery hundreds of horse butcheries were established thruout Paris."

"There are in Paris now more than 500 meat markets exclusively devoted to the sale of horseflesh."

"Beef, mutton, veal and pork are so high that horse meat constitutes the largest item in the domestic bill of the poorer Paris housewife."

"The danger in all this is that horses are not like cattle, sheep and pigs, raised for slaughter."

"When a horse is killed it is either because he is old, sick or because his owner has no further use for him and can make more money selling him to the butchers than to any one for use."

"Thus there is no scientific breeding of horses and the species is slowly but surely becoming extinct. Of six million horses in France before the war there are now not more than 800,000 and this figure is decreasing at the rate of 100,000 every six months."

"The situation in England, Germany and other European countries is practically the same. Efforts for the preservation of the horse as a species must be commenced internationally immediately if they are to be successful."

Children Cry FOR FLETCHER'S CASTORIA

EASTER EARLY THIS YEAR

In the business world the date of Easter is regarded as of big importance. Easter marks the beginning of the spring trade and to a large extent an early Easter means an early start for the whole year.

This year Easter comes unusually early—March 27. It is so early that the ladies will have to be decidedly out of season to put on their spring hats at that time—but of course they will do it anyway then, if not before.

Easter, as we know, is a movable feast, and most of the other church feasts are based on the date of Easter. The reason why Easter is movable,

while Christmas is fixed, is that Easter is determined from the old paschal or Jewish lunar month, while Christmas is determined by the Roman calendar, which has no relation to the lunar month.

It is absurd of course that we should celebrate the birth of Christ each year December 25, and celebrate his resurrection on a date ranging anywhere from March 22 to April 25. Obviously one date or the other must be wrong, and as a matter of fact both are.

Easter is defined as the first Sunday after the paschal full moon—that is the first Sunday after the full moon that occurs on or next after March 21, or presumably the vernal equinox. It cannot be earlier than March 22 or later than April 25.

The paschal moon for the purpose of reckoning Easter however is not the real moon but a sort of arbitrary moon, and there are special rules governing the matter which need not be gone into here. If the full moon falls on Sunday, Easter is the following Sunday.

The vernal equinox can actually fall on March 20, 21, or 22. This year it is on the 20th; but in reckoning Easter they take March 21. The date for the paschal moon is based on European longitudes and not on American. If local longitude was the basis, Easter might be a different date in Europe than in America.

The first full moon after March 21 this year is on March 23, about three p. m., at Washington. But this, of course, means eight p. m. in London and nine p. m., in Rome and in China it will be the next day, March 24.

It will be 1932 before Easter will come as early as March 27 again. Next year it will be late, April 16, and in 1923 it will be April 1, last year it was April 4; in 1919 it was April 20, and in 1918 it was March 31. This shows how erratic the date is; it jumps back and forth without the slightest reference to our calendar.

There has been a great deal of agitation, at one time and another, in favor of making Easter fall on a fixed date, like Christmas. But the traditional reasons against such a reform are so weighty that there is very little chance of its being adopted.

The merchants the manufacturers and wholesalers of seasonal goods would like very much to have Easter come the same every year. So would the college authorities and students. And so also would the ladies who have to "hump themselves" so to keep up with the fashions.

If Easter was pinned down to a given date, then people could arrange their programs accordingly and they would not, as now, find their date schedules thrown out of gear a month or more from year to year. Milady might then get her new spring bonnet in time for Easter and feel reasonably assured that she would not have to put it away in the box for another month on account of a blizzard.

Anyway, this time Easter is very early, and this, taken in connection with the "signs" of an early spring, indicates that we shall get an extra early start on the whole year. It is true that many people depend on the groundhog to tell them, on Feb. 2, whether there is to be an early spring or not; but the groundhog in the past has shown himself shockingly unreliable.—Pathfinder.

LAW AGAINST BATHING ON SUNDAY PROPOSED

New York, Jan. 30.—All bathing will have to be done on Saturday night hereafter if the Brooklyn auxiliary of the Woman's National Sabbath Alliance have their way. The organization will send a delegation to Albany to push a law banning Sunday bathing.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More
Women Knew About Cardui They Would Be Spared
Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all."

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish."

"I was . . . nervous and easily upset."

I couldn't rest well at night and was . . . just lifeless. "I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . ."

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my house work."

"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

Every Woman Wants
Paxtine
ANTISEPTIC POWDER
FOR PERSONAL HYGIENE
Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. Has extraordinary cleansing and germicidal power. Sample Free. 50c. all druggists, or packed by mail, The Paxton Toilet Company, Boston, Mass.

Electric Bitters
Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified.
FOR KIDNEY, LIVER AND STOMACH TROUBLE
It is the best medicine ever sold over a druggist's counter.

Beauty Secrets for Women

A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girlish dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have headache and dragging pains. Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now. In tablet or liquid form at all druggists, or send 10c for trial package of the tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

Mother's use
Frey's Vermifuge
For the Children
A Safe Old Fashioned Remedy for Worms
Seventy-five years continuous use is the best testimony. FREY'S VERMIFUGE can offer you. Keep a bottle always on hand. It will help keep the little ones healthy and happy.
30c a bottle at your druggist's or general store; or if your dealer can't supply you, send his name and 30c in stamps and we'll send you a bottle promptly.
F. & S. FREY, Baltimore, Md.

WILL YOU

USE LIV-VER-LAX
For Lazy Liver and the Troubles of Constipation.

Feel right all the time. Don't lay off from work for days by taking calomel when pleasant **Liv-Ver-Lax** keeps you on your feet, while relieving your troubles. Safer too, and easy to take. Don't take anything else. You can't afford it. Eliminates poisons, cleanses system and relieves constipation. A natural remedy, natural in its actions, sure in its effect and certain in results. It won't be long before **Liv-Ver-Lax** will completely displace calomel in every home. Children can take it freely and with perfect safety. Every bottle guaranteed. 50c and \$1 in bottles. None genuine without the likeness and signature of L. K. Grigsby. For sale by **L. K. WILLIAMS, - Hartford, Conn.**

FARM DEPARTMENT.

Water Glass and Limewater Best Egg Preservatives.

Experiments in preserving eggs have been conducted by the United States Department of Agriculture in the last two years, testing different strength solutions of water glass, limewater and various commercial preparations. The best and most economical results have been obtained by using 1 part of water glass to 9 parts of water. Just as good results have been obtained with limewater as with water glass, and in many sections limewater is much less expensive.

When salt was used with the limewater the results were about the same as without the salt, showing no advantage in using salt. None of the commercial preparations, all of which called for smearing the eggs with the preparation, gave results that were at all satisfactory. When the water glass and limewater solutions were kept over and used again for the second year the eggs kept comparatively well, but not so well as in fresh solution. In most cases the old solutions were not in good enough condition to use again after they had been kept one year. Under usual conditions, it does not appear advisable to use the water glass or limewater solution again for the second year.

In testing containers, the best results were obtained with stone crocks but the water-glass solution was perfectly satisfactory in well galvanized receptacles, such as garbage cans or ash cans. Lime water corroded the galvanized receptacles and gave satisfactory results only in the earthenware crocks. Wooden kegs and other wooden containers did not give satisfactory results with any of the solutions.

The interest in preserving eggs has been very marked during the last 2 years and a very large number of leaflets giving directions for preserving eggs have been distributed, indicating that a great many families are preserving eggs for home use to help keep down the cost of living.

Experiments Show Wheat Is Not Poultry Essential.

Poultry-feeding experiments conducted by the United States Department of Agriculture last fiscal year, show that practically as good results can be obtained without wheat as with it in a ration. The Rhode Island Reds, in the wheatless pen, averaged 140 eggs, while those in the pen receiving wheat averaged 134 eggs. Good results were obtained with the use of garbage until the warm weather began, when there was considerable mortality, due apparently to the garbage spoiling. This work is being repeated this year with much more satisfactory results, the garbage being fed in a trough on a large wooden feeding board, which prevents it from getting on the ground and decaying.

In the use of vegetable proteins the relative order of production is the same as it was last year. No success has followed an attempt to substitute completely vegetable protein for animal protein. The ration used last year, a mash containing only 15 per cent meat scrap as compared with 20 to 25 per cent in the ordinary mashes, gave very satisfactory results with the heavier breeds, especially the Plymouth Rocks, in keeping the birds in good physical condition and fertility, though the egg yield was not quite so good as when the higher per cent of meat scrap was used.

New experiments were begun during the year with green feeds, comparing alfalfa meal with sprouted oats and comparing these rations with one in which vegetables were supplied. While none of these green feeds have shown marked increased production over any other, the results have emphasized the importance and value of that form of food when given in a variety.

All Winter Gardens.

In sections of the South where the climate is mild during the winter, such crops as lettuce, spinach, kale and onions can be grown every month. Under these conditions it will pay to give special attention to the winter garden. Throughout the northern part of the country, however, the winter months are practically a rest period. It should be borne in mind that nature is working all the time and the wise gardener takes advantage of the changes taking place during the so-called intervals of rest.

Good Recipes For Making Pure Pork Country Sausage.

Good pork sausage is always in demand. The following recipes for making it are recommended by the United States Department of Agriculture: Take 65 pounds of fresh, lean meat and 35 pounds of fat. Add to this 1 3/4 pounds salt, 2 ounces fine sage, 1 ounce ground nutmeg, and 4 ounces black pepper. The spices should be mixed together and added to the meat before it goes through

the grinder. Cut the meat into small pieces and put thru the grinder, using the small plate. After it is well ground, mix thoroughly to be sure that it is uniformly seasoned. No water should be added if the sausage is to be stored away in bulk. If it is to be stuffed in casings, a little water may be necessary to soften the meat, so that it will slip easily into the casings.

The following ingredients are used in making smoked or country sausage: 85 pounds of lean pork, 15 pounds beef, 1 1/2 to 2 pounds salt, 4 ounces black pepper, 1 ounce red pepper, 1 ounce sweet marjoram, 1 ounce mace.

Cut the meat into small pieces and sprinkle seasoning over it, then run it thru the grinder using the small plate. Put it away in a cool place for 24 to 36 hours and then add a little water, and stuff into hog casings and smoke in a very cool smoke until a dark mahogany color is obtained.

The toll exacted by plant diseases is appalling. Every season, and in substantially every producing region, they constitute a heavy handicap on crop production.

FRAUD AND MINING VENTURES

The United States Geological Survey, of the Department of the Interior, often finds that unscrupulous promoters of fraudulent mining schemes pretend to be connected with the Government service. Such a man who was recently operating in Colorado represented himself as one of "the eighty registered geologists in the Government service," but one of his intended victims found, on telegraphing to the Geological Survey at Washington, that he was not among its employees and that his name was not on the membership lists of either the American Institute of Mining Engineers, the Geological Society of America, the Association of Petroleum Geologists, or any other well-known geological society. Fraudulent practices of this sort should be reported to the proper State and Federal authorities, and those who resort to them are liable to fine or imprisonment.

Association Cows Average 5,980 Pounds Milk Output.

Tabulation of the yearly records of 38,532 cow-testing association cows has brought to light much valuable information on the relations between milk and butter-fat production, butter-fat test, income over cost of feed, and other factors, say specialists of the United States Department of Agriculture. The average milk production per cow-year was 5,980 pounds; butter fat, 246 pounds; butter fat tests, 4.11 per cent; income over cost of feed, \$55.69; returns for \$1 expended for feed, \$2.11.

The records show that in those associations where the work has been continued for a long period the production has generally increased from year to year. As production increased, the income over cost of feed increased rapidly, and for each increase of 50 pounds in butter fat there was an increase of \$15 in income over cost of feed.

Cows that freshened in the fall produced more milk and butter fat and greater average income over cost of feed than those which freshened in the spring or summer. Large cows excelled small cows of the same breed in production of milk and butter fat and in income over cost of feed. As the butter-fat test increased, the average production of milk declined.

These records also indicate that cows remain in the herd an average of about 4.7 years.

Indirect Income Should Appear In Farm Accounts.

Labor income is not the limiting factor in determining how much the farmer shall have to eat, but it is the determining factor for the wage earner in the city. Food, fuel, and shelter are primary requisites of life, and the farm furnishes its proprietor a good proportion of these necessities in addition to the income he derives from the sale of farm products. These things that the farm furnishes directly toward the living expenses of the farmer's family enable him to live even though his crops are poor. This indirect income from the farm is often unrecognized, unless provision is made for accurately recording it in the farm accounting system, say specialists of the United States Department of Agriculture.

Strawberries Always Need Attention During Winter.

Strawberries invariably require attention during the early winter. If they have made a vigorous growth and the rows are a solid mat of plants, it may be necessary to straighten the edges of the rows and thin the plants to some extent. A little

later, after the ground freezes slightly, a mulch of straw, pine needles, or leaves should be worked in among the plants and between the rows. If the strawberry bed is so located that it is exposed to winds, it may be necessary to lay bean poles or brush over the mulch to keep it from blowing away. Raspberries, blackberries, dewberries and currants should have any grass or weeds cleaned away from them, and a mulch of coarse manure placed around them during the autumn or early winter.

TAKE STOCK OF YOUR HEALTH NOW

Winter Brings Many Ills To Pale Overworked People.

TAKE PEPTO-MANGAN

Fortify Your System—Good Blood Will Give You New Strength to Keep Well.

If you feel the least bit run down, not necessarily sick, but tired and blue, and sort of down and out, it shows plainly that your power of resistance is low.

It is dangerous to go around that way. You don't want to do it.

Make no mistake about it, when you feel yourself slipping into lazy habits, getting indifferent to the things you naturally like—no energy, no vigor, always tired—it is time to look out. It may not mean that you are sick or that you will be. But there are diseases that would have an easy time of it with your system when your blood has no fighting qualities.

You want to be well and keep well and feel strong. If you build up the quality of your blood by taking Pepto-Mangan you will be in trim to fight off winter ills. It has just the right ingredients to build your blood up with rich red corpuscles.

Pepto-Mangan gives your blood the qualities it needs to pick you up and start you off on a healthy basis. You will notice the difference soon after you start taking it. You will have better color, better feeling and more energy.

You can take it in liquid and tablet form as you prefer. Both have the same ingredients. But be sure you get the genuine Gude's Pepto-Mangan. Ask for it by that name—"Gude's Pepto-Mangan," and be sure the full name is on the package. Advertisement.

BALD KNOB.

The farmers in our community are very busy now, stripping and delivering their tobacco, while many are doing their early plowing and preparing for this year's crop.

Mrs. Barbara Johnson and little son, Chester, were visitors at Mr. Newt Havens, Sunday.

Mr. and Mrs. Laburn Hines visited the latter's mother, near Flint Springs, Saturday night and Sunday. Mrs. Anna Davis and little son spent Sunday visiting relatives in Cromwell.

Misses Rae Miller and Della Vawter were guests of Miss Mae Sandefur Sunday.

Miss Alliebell Leach is spending this week with Mrs. Gertie Daugherty in Butler County.

Mr. and Mrs. Norval Daugherty and little daughter, spent Saturday night and Sunday with her sister, Mrs. Ola White.

Mr. and Mrs. Arthur Havens and children visited with Mr. and Mrs. John Leach, of Mt. Pleasant, Sunday. Mrs. Leach has been sick for several days.

We hear that there is a party at Mt. Pleasant pretty sick with smallpox.

Mr. Wavie Leach spent Sunday with Mr. Hubert White. Mrs. Maudie Austin spent the Sabbath with her sister, Mrs. Martha Davis.

Misses Bessie Bell and Ruby C. Cook spent Sunday with their cousins Misses Goldie and Zelma White.

Mrs. Tom Johnson was the guest of Mrs. Jake Leach Monday.

MARKETING PROJECT FAVORED IN HOPKINS

Madisonville, Ky., Jan. 22.—Six hundred Hopkins County burley tobacco growers, meeting here today, endorsed the proposal of forming a marketing organization, of which growers shall be shareholders and by which growers may be able to dispose of their low grades of tobacco.

The meeting was addressed by J. W. Schmeltzer, Hopkins County land owner, who explained the plan.

Munnell Wilson, Madisonville, was appointed to go to Louisville early next week to confer with Judge Robert W. Bingham. Another meeting will be held here February 1.

The bodies of about 550 American soldiers who died in England, are to remain permanently in that country by request of the families of the men.

DO YOU HAVE PRICE OF FARE TO MOON?

Many Volunteer But Few Have Passage For Trip On Rocket et Up "Yonder."

Worcester, Mass., Jan. 29.—Wanting: A millionaire who is tired of this earth and would like to travel to the moon.

There are many who would like to leave the earth, but they haven't the money to pay the fare.

Robert H. Goddard, Ph. D., professor of physics at Clark University, is ready to start the excursion. All he needs is a passenger able to pay his passage.

Goddard proposes to shoot a rocket to the outer rim of the universe. It would contain instruments to record temperatures, air pressure, humidity, wind velocity and other data of the mysterious regions. But he needs someone to finance the experiment.

When he recently announced that it would be feasible to shoot a man in the rocket and that it might travel to the moon, 220,000 miles away, he was besieged with volunteers for the trip. But—

The rocket might turn and come back to earth. It might keep on going, and going, nobody knows where—but many are willing to take a chance.

There's Capt. Charles N. Fitzgerald commander of the New York City air police. He says he's anxious to make the trip.

"The journey promises to be a rough one," says Goddard. Boosted By Blasts.

"The rocket would be shot from a long-barreled gun. It would contain auxiliary charges to boost it along as the initial velocity decreases.

"Each boost would be a terrific bump."

The rocket rider would have a difficult time making entries in his notebook.

When the rocket reaches the moon, if it does, there will be a great explosion to inform the mundane observers that the trip is ended.

The nose of the rocket is to carry a photographic flash powder.

Just what a fellow would do after reaching the moon is not known. But if he should land safely, others might be rocketed there to keep him company.

FARM ENGINEERS TO

MEET FEBRUARY 14 Lexington Ky., Jan. 29.—The third annual meeting of the Southern Section of the American Society of Agricultural Engineers will be held in this city February 14, 15, and 16, ac-

cording to an announcement which has just been made by J. B. Kelley, of the Farm Engineering Section of the State College of Agriculture, who is chairman of the committee on local arrangements. Joint meetings have been arranged for the mornings with the Association of Southern Agriculture Colleges which meets at the same time while the afternoons and evenings will be taken up with lectures by at least 12 speakers of national reputation. The afternoon of the first day will be spent in visiting points of interest in the Blue Grass Section, according to Mr. Kelley.

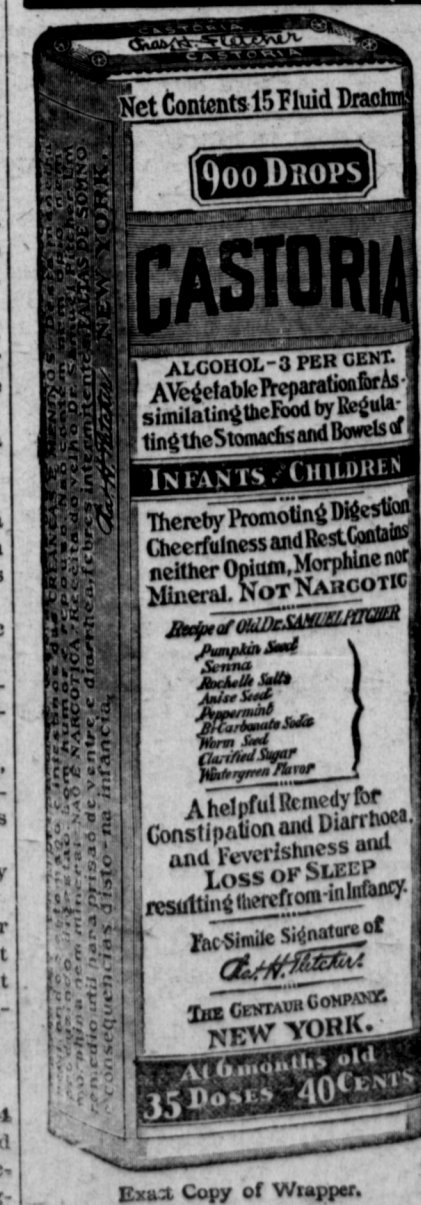

Officers of the southern section are Stanley F. Morse, consulting agricultural engineer, New Orleans, La., president; James Arneston, Department of Education, Nashville, Tenn., vice-president; and Charles E. Seitz, agricultural engineer, Virginia Ag-

ricultural and Mechanical College, Blacksburg, Va., secretary-treasurer. Earl G. Welch, a member of the Farm Engineering Department of the State College of Agriculture is also a member of the committee on local arrangements.

In addition to the officers of the section who will take part in the program more than a dozen speakers of national reputation have been engaged to talk to the engineers on subjects relating to application of their profession on the farm.

Chemists are working to develop a flashless powder which will make the discharge of artillery nonobservable at night.

Great Britain at one time obtained \$100,000 a year from a tax on users of hair powder.

S. A. BRATCHER, Sheriff Ohio County.
SELECT.
Rev. Morris filled his regular appointment here Saturday night and Sunday.
Miss Floy Allen is visiting her friends Mr. and Mrs. Jim Howard, near Horton.
Mrs. J. H. Stewart is on the sick list.

Quite a number of Cromwell people attended church here Saturday night.
Mr. and Mrs. W. P. Allen attended church here Sunday and dined with Mr. and Mrs. E. M. Eldson.
Mr. John Miller, of Horse Branch, visited his cousins, Mr. and Mrs. J. L. Miller, Wednesday.

Mr. and Mrs. Price Miller are contemplating moving near Taylor Mines where they will make their home.
Mr. Dee Hayse happened to quite a painful accident Monday, the 24th, by falling against a broad-ax, cutting his knee seriously.

Mr. Phelps and son, of Butler County, have returned to their saw-mill, on the Winslow Smith land.

HARDING WOULD LIKE VOLUNTARY TRAINING

Incoming President Favors Plan For Training 150,000 Men Annually—Kahn.

Washington, Feb. 2.—President-elect Harding favors enactment of legislation to provide for voluntary military training of 150,000 men annually, Chairman Kahn of the House Military Committee announced today on the floor of the House in launching his fight to prevent reduction of the regular army below 175,000 men.

Chairman Kahn declared that the President-elect had told him at Marion, Ohio, recently that he favored an army of 175,000 men, but that he hoped that "some day" it could be cut to 150,000 men.

"Reduction of the army to 150,000 men, as provided in the Army Appropriation bill, may be possible a year hence," said Mr. Kahn, "but it is not advisable to take such a step at this time. The United States hasn't a friend among the nations of the earth. Serious problems confront the American people and it would be a mistake to authorize further reduction of the army until conditions become more stable."

Discussing the President-elect's suggestion of voluntary training for 150,000 men a year, Mr. Kahn said he did not think it would be possible to get that many men to training camps but he declared Congress should give an opportunity for the plan to be tried out.

STONE SLAB FOR MCANAL PUT AT ROOSEVELT GRAVE

Oyster Bay, N. Y., Jan. 22.—A slab of limestone taken from Culebra Cut on the Panama Canal has been placed beside the grave of Theodore Roosevelt, who brought about the building of that waterway. The stone, cut from a spot sixty feet above where President Roosevelt made an address in 1906, was presented by "The Canal Zone children."

It was placed beside the grave of the former President by Henry J. Grieser, a swimming director at Balboa, and the ceremonies were attended by the Roosevelt family and school children of Oyster Bay.

SKIRTS STAY HIGH IN LONDON TOWN

London, Jan. 29.—A feature of the new costume models is the white marino wool trimming. A thin band of this is used round the waist and the cuffs are also finished in the same way, the edge of the skirt is bordered with a similar white band. Skirts which are narrower, come four inches below the knee.

MARRIAGE LICENSES

Claud Davis, White Run, to Frankie Molyhorn, White Run.
Homer King, Louisville, to Ethel Balze, Rosine.
Oakley Blankenship, Beaver Dam, to Erpha Phelps, Beaver Dam.

Join the "Invisible" Guest Club

Have you a hospitable home? Do you entertain your friends? What does it cost you for an evening's entertainment? Will you entertain an "Invisible" Guest at your table and become a member of the "Invisible" Guest Club of America? It will cost you only Ten Dollars.

There are 3,500,000 undernourished, debilitated waifs and orphaned children in Eastern and Central Europe, whose lives must be preserved by American generosity and hospitality.

A Certificate of Membership in the "Invisible" Guest Club of America will be sent to you, signed by Herbert Hoover and Franklin K. Lane, National Chairman and Treasurer; also signed by the State Chairman of Kentucky.

If you will send your check for Ten Dollars, or more, to the European Relief Council, Richard Bean, Treasurer, Board of Trade Building, Louisville, Kentucky, or deposit this amount to his credit in any bank in Kentucky, you will receive an "Invisible" Guest Certificate by return mail.

Will you not join this "Invisible" Guest Club today?

HAYS TO REMAIN G. O. P. CHAIRMAN

Washington, Jan. 29.—Will H. Hays will remain as chairman of the Republican National Committee for several months, at least after taking his place as postmaster general in the Harding cabinet, according to Republican party plans which became known here today. The reorganization of the committee may come a

AMERICAN LEGION HERE AND THERE

Adjutants and treasurers of ten thousand posts of the American Legion are busy collecting post, department and national dues for the year, 1921. Reports indicate that the "button membership" those who are members of the Legion but who are behind with their dues, will be substantially decreased. The clarification of the Legion's position in regard to Organized Labor and political activity together with the vigorous fight it has made for the sick and disabled war veterans are believed to have encouraged payment of dues and to have gained many thousands of new members.

When members of the Dubois County, Ind., board of commissioners heard complaints of breaches of etiquette in care of the county flag they placed its guardianship in the hands of Dubois County Post of the American Legion at Jasper the county seat.

The conduct of members of the Harry W. Congdon Post of the American Legion at Bridgeport, Conn., is so exemplary that it has enrolled four clergymen. The post rolls include practically every profession and trade, but lawyers and doctors are the most numerous. The present commander is a lawyer, the two past commanders are a lawyer and a physician and the medical profession also claims three members of the executive committee.

CHICAGO NEGRO WOMAN RUNS FOR ALDERMAN

Chicago, Jan. 29.—The first negro woman to be a candidate for alderman in the City Council of Chicago, Mrs. Lela M. Sims, whose position was one of the last to be filled before the time limit expired yesterday at the city clerk's office. She is a candidate for the office of the Council member representing the 14th Ward on the West Side, and the old stronghold of the late Roger C. Sullivan, noted Democratic leader.

FORMER DEMOCRATIC CHAIRMAN QUITE ILL

New York, Jan. 30.—William F. McCombs, former chairman of the Democratic national committee, has been seriously ill for nearly a month. It was learned here today. Mr. McCombs is out of the city with his family. Frederick R. Ryan, his law partner, said tonight he had shown some improvement but that his condition still was serious.

MRS. W. G. HARDING VISITS NEW YORK

New York, Jan. 30.—Mrs. Warren G. Harding, wife of the President-elect, arrived here late today from Washington. At the Ritz-Carlton Hotel, where she is registered, Mrs. Harding declined to receive any visitors tonight. She will remain here several days on a shopping tour.

SMALL TOWN EDITOR'S HARDEST JOB

In such cases the thing worst dreaded by those at fault is publicity. Sometimes they come at you threateningly, talk of libel suits, or perhaps worse. Again they'll plead with you not to break the heart of a good old mother, whose idol had fallen. It's a bitter question. The editor tries to answer it as best he can, using such judgment as he has.

He often knows that if he spares it, it will be the means of others following the wrong course in life, because if the derailed car can keep the paper silent he can still maintain some sort of standing in the community. It's a fine rule to "tell the truth, let it hit whom it may," but I never saw a country editor who would not run up the white flag at the sight of a woman's tears.

FAMOUS HEN STARTS FIFTH LAP OF LAYING

Lexington, Ky. Jan. 29.—Lady Walnut Hill, the famous White Leghorn Hen, owned by the State College of Agriculture started her fifth year of laying recently when she laid her 811 egg. The famous hen went into a moult October 28th, after laying 154 eggs during 1920. She holds one world's record in egg laying having produced 94 eggs in 94 consecutive days. The record was made in her pullet year.

count. If this can be done, disabled soldiers will be saved many hundreds of dollars.

New York members of the American Legion are aiding in a search for Lieutenant Thomas Dunn English, formerly of the 78th Division, and grandson of Thomas Dunn English, former congressman, lecturer and author of "Ben Bolt." Lieutenant English was shell shocked at the front.

Exemption of veterans from paying poll taxes was refused indorsement by Vermont American Legion post commanders and adjutants and members of the state executive committee at a recent conference which was attended by F. W. Galbraith Jr., National Commander of the Legion. A bill which was introduced in the state legislature did not meet with the Legion's approval because the ex-servicemen held that it was their duty to pay taxes the same as any other body of citizens.
